The Migraine Disability Assessment Test

The MIDAS (Migraine Disability Assessment) questionnaire was put together to help you measure the impact your headaches have on your life. The information on this questionnaire is also helpful for your doctor to determine the level of pain and disability caused by your headaches and to find the best treatment for you.

INSTRUCTIONS:
Please answer the following questions about ALL of the headaches you have had over the last 3 months.
Select your answer in the box next to each question. Select zero if you did not have the activity in the last 3 months.

_____1. How many days in the last 3 months did you miss work or school because of your headaches?

_____2. How many days in the last 3 months was your productivity at work or school reduced by half or more because of your headaches? (Do not include days you counted in question 1 where you missed work or school.)

_____3. On how many days in the last 3 months did you not do household work (such as housework, home repairs and maintenance, shopping, caring for relatives) because of your headaches?

_____4. How many days in the last 3 months was your productivity in household work reduced by half or more because of your headaches?
(Do not include days you counted in question 3 where you did not do household work.)

_____5. On how many days in the last 3 months did you miss family, social or leisure because of your headaches?

_____ Total (Questions 1-5)

_____A. On how many days in the last 3 months did you have a headache?
(If a headache lasted more than 1 day, count each day.)

_____B. On a scale of 0-10, on average how painful were these headaches?
(where 0 = no pain at all, and 10 = pain as bad as it can be.)

MIDAS Grade	Definition MIDAS	Score
I	Little or no disability	0-5
II	Mild disability	6-10
III	Moderate disability	11-20
IV	Severe disability	21+

Scoring:
After you have filled out this questionnaire, add the total number of days from questions 1-5 (ignore A and B)

Please give the completed form to your clinician.

This survey was developed by Richard B. Lipton, MD, Professor of Neurology, Albert Einstein College of Medicine, New York, NY, and Walter F. Stewart, MPH, PhD, Associate Professor of Epidemiology, Johns Hopkins University, Baltimore, MD.
