Green Infrastructure & Water in a Changing Climate
CitiesAlive 2022: Green Infrastructure & Water in a Changing Climate

What to Expect

CitiesAlive is back in 2022 and is going to be bigger and better than ever! This multi-disciplinary conference will be hosted in Philadelphia, where we will be highlighting innovative green roof designs, groundbreaking policies, and the best products and services in the green infrastructure industry, specifically focusing on green roofs and walls.

The content in Philadelphia will focus on the theme, **Green Infrastructure & Water in a Changing Climate**. Water is critical to the health and resiliency of our communities. Over the last several years, Philadelphia has become a green infrastructure leader through creative policy solutions that work to create vibrant community spaces while managing stormwater. In 2011, the Philadelphia Water Department implemented a plan to invest $1.2 Billion over the next 25 years.

**CitiesAlive** will feature various opportunities for attendees to network and engage with experts like design professionals in the field. **CitiesAlive** will provide you with a unique opportunity to identify and conduct Business to Business and Business to Consumer transactions, to network with industry professionals, and to have fun and learn. Our specialized programming is focused on engaging young design professionals and students who are the specifiers, designers, researchers and policy makers of tomorrow.

Our industry is constantly evolving. Learn about the new products and services that are available in our Product Showcase.

**Expert Round Tables**
Get expert advice. Recognized experts will be available for small group discussions covering a wide range of green roof and wall subjects.
Why Invest In CitiesAlive 2022?

We represent a young industry that is positioned for continual growth because we provide solutions for many of today’s problems, such as heat waves, the rising urban heat island, intense storms, and declining green spaces. Marketing and promoting your firm through CitiesAlive provides significant direct value with more than one million impressions of your logo, opportunities to connect on the Business to Business level, as well as the Business to Consumer level, while helping us to grow the industry.

**BRAND DEVELOPMENT & MAINTENANCE**

Our marketing & promotional efforts reach across North America and generate more than 1 (one) million impressions for your logo. We do this directly, and through various media and association partnerships. The overall value of these marketing and branding efforts ranges from $25,000 to $82,000 depending on your level of investment.

**GROWING THE MARKET THROUGH POLICY**

CitiesAlive is designed to encourage the local and regional city councils to Adopt and improve policies that support green roofs, walls and other forms of green infrastructure. We have seen this in Washington, D.C., Toronto, Chicago, Portland, and San Francisco; all of whom have supportive policy. NYC, where we have held several conferences and engaged policy makers, has just made green roofs and solar panels mandatory on all new buildings.

**BUSINESS TO BUSINESS & BUSINESS TO CONSUMER**

Promote and market your goods and services to a targeted audience by connecting directly to designers, suppliers, and manufacturers. Many firms in the industry supply or are supplied by other firms, or simply have partnerships in sourcing and delivering goods and services. Meet and develop these relationships at CitiesAlive. Your investment in CitiesAlive allows us to attract new design professionals by helping minimize costs.

**TRAINING & KNOWLEDGE EXCHANGE**

Through our policy, design, research and panel discussion tracks, designers can earn CEU’s from AIA CES, LA CES, USGBC/GBCI, APLD, BOMI, CNLA, CCA, GRHC, and GRP Credits and become more aware of the many economic benefits of green roofs and walls in their projects. As a sponsor, you can also take advantage of our built-in training opportunities for your staff – which help make the more well informed.

**ENGAGING DESIGN & LOCAL INDUSTRY LEADERS**

As a new industry we rely on the leaders to address emerging issues and CitiesAlive provides a meeting place for the industry to discuss and debate issues and set priorities for addressing them. Through the Local Host Committee, CitiesAlive provides opportunities for local champions to become engaged in the promotion of the industry.
Marketing & Promotional Opportunities

CitiesAlive offers a unique set of marketing and promotional opportunities for your firm. Investing in CitiesAlive also establishes your leadership position in this innovative and rapidly growing sector. Opportunities abound at CitiesAlive to build strategic partnerships, new relationships, greater brand visibility, and to help us advance supportive policy. Your investment allows us to continue to grow the market through policy and education.

Please note that Custom & Local Sponsorship Packages are also available!
