# CITIESALIVE

**GREEN ROOF & WALL CONFERENCE**  
**THE HOMECOMING: PHILADELPHIA - OCT 16-19, 2022**

## It's Homecoming for the Living Architecture Community!

After two years of virtual meetings, we are getting together in person and making up for lost time. Join us for the 19th annual CitiesAlive conference, live in Philadelphia this October. In addition to a packed schedule of presentations and continuing education, there will be local green roof tours, design awards, a trade show, and a private yacht dinner cruise on the Delaware River among other fun events. Check out [CitiesAlive.org](https://CitiesAlive.org) for more information and to book your hotel now at the discounted rate.

**[Book a room!](#)**

Philadelphia is an example to the nation on how to address key environmental and equity concerns with the use of green infrastructure and living architecture. Keynotes Randy Hayman, CEO of the Philadelphia Water Department, Howard Neukrug, Executive Director of the U Penn Water Center, and Naomi Davis, Founder and President of Blacks in Green, will showcase their inspiring efforts to not only manage stormwater sustainably, but also work to attain social equity while doing so.

Hear from policy makers, researchers, designers and other experts on how green roofing and living walls provide climate resiliency and help attain environmental equity across the social spectrum. Hot topics include biophilic design, urban agriculture, blue roofs, living walls and how to develop equitable policies supportive of green infrastructure and green jobs at all skill levels.
