Too Hot for Spot

SUMMER'S GREAT!
PROTECT YOUR PETS!

- DON'T LEAVE PETS IN CARS IN WARM WEATHER
- DON'T WALK YOUR DOG WHEN THE SUN IS HEATING THE GROUND
**SAFETY TIPS**

- **7 SECOND PAVEMENT TEST**
  Touch the pavement with the back of your hand for seven seconds. If you can’t hold out for the full seven seconds because the surface is too hot, then it’s also too hot for your dog’s paws.

- **LEAVING PETS IN THE CAR**
  Just don’t do it. The change in temperature in a car can be life-threatening in minutes.

**SUMMER IS GREAT! MAKE SURE YOU DON’T MAKE IT TOO HOT FOR SPOT!**

---

**Too hot for Spot!**

Just 77 °F weather can bring pavement to 125 °F
