

Consultant – New York, NY

Are you passionate about improving health and health care? Do you want to wake up every day and make a difference? Then join VAL Health's growing team to solve health care's most challenging problems.

VAL Health is the leading health-related behavioral economics consulting firm with a true mission: help millions of people improve their health and lower the cost of healthcare. Founded by the preeminent figures in the field of behavioral economics, VAL Health uniquely marries evidence-based research with real-world experience to develop behavior change solutions that measurably improve health and increase engagement. Our client's results speak for themselves: 3x smoking cessation rates, 6x increase in digital portal usage and 10x increase in telehealth adoption.

As a Consultant, you will work on high profile projects, manage senior clients and regularly interact with the VAL Health Scientific Advisory Board. You will have an unparalleled opportunity to learn from industry leaders as you develop high-impact behavioral economics strategies. You will be specifically responsible for managing projects end-to-end, developing and presenting client deliverables and working with other VAL Health team members to move the project forward.

The Consultant position is located in New York City with competitive compensation and equity, and opportunities for rapid career advancement. We work together in a casual environment and provide healthy snacks. Please send cover letter and resume to careers@valhealth.com.
