

Senior Associate – New York, NY

Are you passionate about improving health and health care? Do you want to wake up every day and make a difference? Then join VAL Health's growing team to solve health care's most challenging problems.

VAL Health is the leading health-related behavioral economics consulting firm with a true mission: help millions of people improve their health and lower the cost of healthcare. Founded by the preeminent figures in the field of behavioral economics, VAL Health uniquely marries evidence-based research with real-world experience to develop behavior change solutions that measurably improve health and increase engagement. Our client's results speak for themselves: 3x smoking cessation rates, 6x increase in digital portal usage and 10x increase in telehealth adoption.

As a Senior Analyst, you will work on high profile projects across the health care industry and apply cutting-edge behavioral economics science while regularly interacting with clients and the VAL Health Scientific Advisory Board. You will have an unparalleled opportunity to learn from industry leaders as you develop high-impact behavioral economics strategies.

You will be responsible for:

- Translating behavioral economics research to develop actionable solutions for our clients
- Owning project work streams, ensuring they are on time and exceed client expectations
- Generating organizational thought leadership

The Senior Analyst position is located in New York City with competitive compensation and equity, and opportunities for rapid career advancement. We work together in a casual environment and provide healthy snacks. Please send cover letter and resume to careers@valhealth.com.

MINIMUM REQUIREMENTS:

Our ideal candidate thrives in a fast-paced, entrepreneurial environment with a background that includes consulting and health care.

- Bachelors degree required from a leading academic institution
- 1-3 years consulting experience with a track record of taking ownership and driving results
- Experience with a hypothesis driven approach to problem solving
- Team player yet self-starter
- Clear excellence in verbal and written communications
- Passion for health and wellness is a bonus
