The challenge

- 4 out of 10 students in the region abandon school
- Ages 12 - 15: highest dropout rate
- 50% of which 2/3 are women
- 32 million young people are neither attending school nor seeking employment.

We are all living in the “Fourth Industrial Revolution”: the fusion of technologies that impact in every aspect of human life. The JA programs combine the experience of our volunteers with blended learning formats, making education for youth relevant and teaching the abilities and skills they need to succeed.

The landscape: a new industrial revolution

We are all living in the “Fourth Industrial Revolution”, the fusion of technologies that impact every aspect of human life. The JA programs combine the experience of our volunteers with blended learning formats, making education for youth relevant and teaching the abilities and skills they need to succeed.

Proof of outcome

They saved $2.4M in 2018.

Our Regional Partners

We inspire and prepare youth to succeed in a global economy

We activate youth for the future of jobs. Through the delivery of hands-on, blended learning in financial literacy, work readiness, and entrepreneurship, we create pathways for employability and job creation.

Ethics

- 21st Century skills
  - self-efficacy, critical thinking, creativity, communication, collaboration, leadership, initiative, etc.

Technical Skills

- business, STEM and digital skills

Entrepreneurship

- Financial literacy
- Work readiness
