402 "Seeing the Elephant" Guided tour to Gray Fossil Site

Date: TBA

"Seeing the elephant" is an Americanism which refers to gaining experience of the world at a significant cost.

You can gain that same experience at a cost that YOU set ! You can get an up close view of the real creatures that lived and thrived right in our back yards! Travel back in time (and down into the dirt) and learn about the AMAZING fauna that lived RIGHT here! The TUSKS of our "elephant" creature stopped a DOT road crew's bulldozer in its tracks! These animals lived Millions of years before your grandparents ice age mastodons! Pandas you ask, we have CUTE little ones; smaller, cuddlier, and RED!

Bid for a volunteer-guided trip to the Gray Fossil site !!!!! Our group of 4 winners will tour the formal exhibits, the dig area, and the behind-the-scene area where fossil finds are cleaned, analyzed, and scientifically classified. Known for its rare red panda discoveries and other Miocene-epoch animals, the site has recently been pursuing recovery of a trove of Miocene mastodont fossils.

The tour will be conducted by Rolla Wade, a lab preparation volunteer. The winning bidders can select a convenient time (Tuesday-Saturday) to meet as a group and tour East Tennessee State's Gray Fossil Site Natural History Museum.
