I'm a communication designer with a passion for problem solving. Though I dabble in everything I have a particular interest in UI/UX; designing products that are easy to navigate and create a positive experience for the user.

Education Texas State University
BFA Communication Design

Relevant Work **Epilepsy Companion App**
Used *research* to understand what features would be important to users. Mapped out the initial concept through *rapid prototypes*. Utilized *user testing* to make decisions on key features. Mocked up the final concept in *Illustrator*. Fine tuned the app through another round of user testing after making a working prototype in *Invision*.
