

A FAMILY EARNING \$250K

HOW THEY'D RECEIVE \$280,000 PER YEAR INSTEAD
OF THE \$145,000 THEY RECEIVE TODAY

UNDER TODAY'S system, a family earning \$250,000 per year is left with a net disposable income of about \$146,000, as they pay an average of \$58,000 in taxes, \$14,000 in healthcare and \$32,000 in mortgage payments (assuming at \$500,000 mortgage). Under the proposed system the same couple would end up with a net disposable income of over \$280,000. Their taxes would drop from \$58,000 to \$450, while basic healthcare would be free. In addition, they'd receive \$48,000 per year in Basic Income, while Banking 2.0 would reduce their mortgage payments from \$32,000 to \$17,000.

	<u>Today</u>	<u>Proposed</u>
Salary	\$250,000	\$250,000
Minus Taxes	-\$58,077	-\$450
Basic Income	\$0	\$48,000
Healthcare	-\$14,000	\$0
\$500K Mort Payments	-\$32,205	-\$16,667
Disposable Income	\$145,718	\$280,883
