

**BECAUSE CHILDHOOD IS TOO SHORT
TO WASTE ON A SMARTPHONE.**

You can make a difference. You can say yes to waiting.

TAKE THE PLEDGE

By signing the pledge at waituntil8th.org, you promise not to give your child a smartphone until at least 8th grade as long as at least 10 families total from your child's grade and school take the pledge. As an alternative, a basic phone might be appropriate, as it avoids many of the distractions and dangers of the

smartphone. **Once 10 families have pledged from your child's grade and school, you will be notified that the pledge is in effect!**

waituntil8th.org

WaitUntil8th.org started with a few parents in Texas and a simple idea. If they rallied together, they could reverse the power of peer pressure as smartphone ownership invaded their elementary schools. Brooke Shannon led the charge to start a nationwide campaign asking parents to wait until their kids were in at least 8th grade to grant smartphone privileges, citing concerns over social and relational impairment, as well as addiction, distraction, depression, and exposure to mature content.
