A PICTURE OF ME WILL CURE THOSE WHO HAVE FALLEN ILL FROM THE SPREAD OF DISEASE.

The Japanese mythical sea creature, Amabie, is three-legged and covered in scales with a beak and long hair. It dates back to the 1800s and legend claims a Kumamoto town official spotted the Amabie, and curious, he approached it. The Amabie shared a fortune with the official – a picture of me will cure those who have fallen ill from the spread of disease.
