The Bee Day

By: Fiala S.

Pot of honey that we harvested

On Thursday, July 22, Detroit Hives came over and taught us many things, and here are some things that I learned.

I learned that it takes 24 days for a drone bee to hatch and that bees have 5 eyes. Also, we learned bees came to the USA in 1633.

When Detroit Hives came over we also got to play bingo to win prizes like shirts, stickers, honey sticks, and a USB. We all had lots of fun that day!

one thing I liked about the farm visits was learning about the flowers. 3 things I liked about the bee presentations. I like scraping the honey and playing the bingo and learning about the pollen.
Farmer's Fieldtrip

By Jackson

My favorite thing about the nurturing our seeds from was one of the farmers said that the purple peppers are one of the hottest peppers in the world! I learned that marshmallows are named after a plant.
Farm trip
By Khalilah E.

Farm trip #1
Today we went to a farm, we ate some flowers that were spicy. Then we ate some blackberries and some apples.

Farm trip #2
I liked when we saw those little cute cucumbers. We also felt some flowers that felt like marshmallows.
Woody is a tree𝐝𝐚𝐯𝐞ｒ.
He has a stump growing on his head.
Woody solves the environmental problem of deforestation.

Fun Fact:
Blushing Hibiscus, helps Woody by making the air clean.

What I learned was that purple peppers are one of the hottest peppers in the world!

Second thing that I learned is that marshmallows are plants.

The third thing I learned is that there are edible plants and squirrels love cupries. Fourth thing is that black berries have spiky leaves and they hurt but. The last is grapes grow really small and cupries grow from flowers.
I want to solve factory pollution because it is very bad for the earth and people.

Because it is very toxic for the earth and people.

I think it can get really sick and even get CANCER!
An environmental problem I want to solve is pollution because it is bad for the world and it is killing animals and plants. By Aniela.
Sigs

by Jackson

The environmental problem that my creature will solve is fossil fumes.

Sigs will eat smoke.

And clean the air in their body then they fart out clean air.
I want to solve fossil fumes because I like to see the blue sky and I want people to breathe plus I want animals to breathe too.

Shadow snatched the cats arm and took it into the shadow realm.

The tree is collapsing and the cat is sitting right where the tree will fall!

what a silly cat!
I WANT TO SOLVE WATER POLLUTION BECAUSE IT IS KILLING ANIMALS.

The landscape was still.
The dunes glittered in the scorching sunlight.
Lit armor dazzled the eyes.

PSHHHHHHHHH!!
“I’ve been deactivated!”
“We’re under attack, but from where?”
“THAT you will never know. But you will lose numbers,” said the enemy.
“Oh, will we? You haven’t finished us off yet!” Said Team Raven.
Suddenly, Team Raven was surrounded!

The Adventures of Anne

by Aniela

There was a girl named Anne. She was an ordinary girl until one night in her sleep she became teleporting girl. When Anne woke up, she felt something strange within her, she looked in the mirror and she was not there, but there second she was! Anne was very confused.

She went to school like normal, just thin kind she was tires and didn't see clearly, but when Anne got to school, she was teleported into her classroom and at that moment she knew that there was something very wrong! She got through her classes, but the whole time Anne was there she could feel something wrong. She went to the doctor, but they said there was nothing wrong.
Ghost Girl: The day
By Khalilah E.

In one land far far away there was a girl named Khalilah. Khalilah had a very long day of school so she needed to go to sleep. Khalilah took a shower and brushed her teeth before she went to bed. She wanted to watch a movie about ghosts she loved watching things about haunted stuff and history.

She finished watching the movie then went to sleep. Khalilah had a dream that she had turned into a ghost and could fly and in the dream she saw her ghost self fighting a demon. When she woke up she thought that it was cool. She had a dream about the movie she watched last night.

Khalilah didn’t think much about it; she got dressed and ate oatmeal. Then Khalilah walked felt like she was floating. Khalilah walked up to school and got to class. She asked the teacher if she could go to the bathroom because she didn’t feel good.

Khalilah went into one of the bathroom stalls. She felt light headed. Khalilah went to the mirror and saw she was not there.

She ran back to class and no one saw her, so Khalilah left a note at the office and started to float back home. She was so confused! She finally got back home. When she walked in the door, Khalilah’s mom could see her. Khalilah ran in her room - she remembered that her dream was about the same thing!

Khalilah just fell in her bed and went to sleep. In her dream it felt very real. She walked around this town looking places. Khalilah heard a dark deep voice saying “You are ghost girl. You are a shape shifter a ghost and can fly.” Then Khalilah woke up and realized she was a ghost girl. A ghost shape shifter and could fly. Her outfit was tall white boots and black jeans and a long coat. Her eye color was white.
I like doing biog, and I know that bees have and 4 wings and in 1751 bees came to be important.

I want to solve cutting down trees.

I think every time we cut down trees we should plant more.

I want to stop littering because it's destroying the earth and humans need the earth.
