

Meetings Travel Made Easy with DEEM

Event Management isn't just about travel

From start to finish, meetings and events are about goals, budgets and ROI—and your stakeholders can range from finance, procurement and marketing to training, sales, legal and senior management. That's why consolidating and integrating meetings and events travel into your current Deem Work Force program makes sense.

Without an integrated process, companies can miss opportunities to leverage the automation already in place for transient travel, ensure adherence to policies and preferred suppliers, simplify logistics, and control costs.

Deem Work Force for Meetings supports integration with Cvent.

For Your Business

Visibility

Gain clarity around meeting transactions to support strategic decision making.

Savings

Leverage in-place automation to reduce agency fees and increase use of negotiated suppliers and preferred payment method.

Compliance

This intuitive tool encourages online adoption and in-policy booking.

For Your Employees

24/7 Convenience

It's a few quick clicks from the registration link to the Deem meeting mode—and from there, it's fast, simple and intuitive.

Integration

Save time and eliminate confusion via a single profile for transient and meetings travel.

User-friendly registration and booking process

Meeting details around destination dates and arrival times are pre-populated to ensure your attendees arrive within your designated windows.

Deem Work Force Features

Deem's meeting integration with your preferred event management provider means ready access to automated arrival and departure lists and meeting-related reporting that keeps you informed throughout the meeting process—creating efficiencies and reducing hassles as you reconcile data and costs.

Ability to customize parameters such as travel policies and preferred suppliers

Ability to inhibit rental cars, ground transportation and hotels

Convenient single profile for both transient and meetings travel

Delegates can book on behalf of profiled and non-profiled travelers

Guest travel and single-use payment capabilities
