

RESTAURANTS

GOOD FOOD, GOOD SERVICE...AND GOOD SECURITY

New Orleans has a well deserved reputation for great restaurants. Unfortunately, food isn't the only thing New Orleans is known for. The best food in the world won't keep customers coming to your door if they feel unsafe when entering or leaving your restaurant. One tragic incident can destroy your business, and we don't want you to be a victim any more than your customers.

THE BASIC INGREDIENTS

Whether you've just decided to use contract security or whether you're dissatisfied with your current security provider, we can help. Quality makes all the difference - here's where we stand out:

- Courteous officers
- On time arrival
- Good personal hygiene and uniform appearance
- Permanently assigned, regular security staff
- Customer escorts to and from vehicles
- Failsafe check-in/ check-out procedures
- Specified lockdown routine
- Routine surprise inspections by supervisors
- Monitoring restaurant staff
- Cab stand control
- Regular contacts between security and restaurant management
- Rapid replacement capability when someone is sick or on vacation

LAGNIAPPE

Before we ever send one of our officers to protect a restaurant, we review escort and emergency response procedures one last time. We know that thoroughness is appreciated by the bad guys because when they see a professionally handled escort in progress, they'll go elsewhere. And prevention is always better than reaction.

But we know that reaction is sometimes required, and most restaurant security details are handled by armed officers. So we've got to get you a level-headed officer who won't react improperly in even the most threatening situation. Shooting a good score on the firing range just isn't enough for us. You'll be glad to know that all of our armed officers undergo additional training on subjects like self-defense, appropriate use of force, verbal disarmament techniques, and shoot/don't scenarios. Because the last thing you need is for us to make a bad situation worse!
