

Outplacement

B.E.S.T. Talent Management Strategies, LLC provides outplacement, career management and executive coaching services that are contracted for by employers who are transitioning their employees, or in some cases the individual employees themselves to assist these employees in making a smooth and successful career transition to a new job.

Our services typically consist of individual or group planning, career counseling and career coaching. After several decades in the career management industry, we realize that many downsized (laid off) employees are relatively unfamiliar with current job search methodologies, techniques and success factors. To meet that need we provide extensive job search training in this area.

Historically, firms such as ours help develop resumes/CV's, cover letters and job portfolios for individuals. We also provide job leads through networking along with follow-up counseling and advice.

B.E.S.T. also provides both virtual and in house service in our office(s) and at customer sites when needed. Our in office service supplies office space and all aspects of job search and career transition training for job searching employees and in some cases group training in these areas.

Unlike some of the larger outplacement firms **B.E.S.T** provides extensive and customized individual client attention from our dedicated career consultants who provide the necessary and proper time with our clients to offer high quality, individual, customized counseling advice, and assistance along with job career transition training materials.

B.E.S.T. Recruiting Approaches

Through our extensive outplacement service offering, we also fulfill staffing needs and requirements by providing large, medium and small companies, businesses and organizations with talent sourcing in a variety of areas, both permanent and temporary.

At **BEST** – Learning never stops ... Our approach

- ❖ Dignity
- ❖ Respect
- ❖ Patience
- ❖ Commitment
- ❖ Strategic Planning
- ❖ Follow Up
