TOLEDO MUSEUM OF ART
COPYING WORKS OF ART

1. Due to restrictions of copyright law, copying is not permitted in Modern and Contemporary American and European art galleries.

2. Sketching with pencil or colored pencils is permitted without special permission.

3. Those wishing to copy two-dimensional works of art with any media other than pencil or colored pencils must obtain an application form from the Registrar’s Office. The completed form and copy must be submitted to the Registrar’s Office for approval. A copy of the approved or disapproved application will be returned promptly. The form, if approved, must be presented to the Security Coordinator or Security Supervisor upon entering the Museum. If approval is given to accommodate more than one individual at any one time, copies of the approved form must be sent by the Registrar’s Office to the Tour Scheduling Office and to the Chief of Protective Services.

4. Upon finishing their work in the galleries, visitors copying works of art are requested to make certain that the areas in which they have been working are completely clean.

5. Those wishing to copy three-dimensional works of art must contact the Registrar’s Office; such requests will be reviewed on a case-by-case basis.
