LWCF Success in New York

The Land and Water Conservation Fund (LWCF) has provided funding to help protect some of New York's most special places and ensure recreational access for hunting, fishing and other outdoor activities. New York has received approximately \$355.9 million in LWCF funding over the past five decades, protecting places such as the Gateway National Recreation Area, Sterling Forest, and Wertheim National Wildlife Refuge.

Forest Legacy Program (FLP) grants are also funded under LWCF, to help protect working forests. The FLP cost-share funding supports timber sector jobs and sustainable forest operations while enhancing wildlife habitat, water quality and recreation. For example, the FLP contributed to places such as the Adirondack Lakes in Hamilton County and Ticeteneyck Mountain in Ulster County. The FLP assists states and private forest owners to maintain working forest lands through matching grants for permanent conservation easement and fee acquisitions, and has leveraged approximately \$19 million in federal funds to invest in New York's forests, while protecting air and water quality, wildlife habitat, access for recreation and other public benefits provided by forests.

LWCF state assistance grants have further supported hundreds of projects across New York's state and local parks from the Coney Island Boardwalk in Brooklyn to the Confluence Park and Chenango River Promenade in Binghamton.

Economic Benefits

Active outdoor recreation is an important part of the New York economy. The Outdoor Industry Association has found that active outdoor recreation contributes \$41.8 billion annually in consumer spending to New York's economy, supports 313,000 jobs which generate \$14 billion in wages and salaries and produces \$3.6 billion annually in state and local tax revenue. The U.S. Census Bureau reports that each year over 4.6 million people participate in hunting, fishing, and wildlife watching in New York contributing over \$4.5 billion to the state economy.

SUPPORT FULL AND PERMANENT FUNDING FOR
THE LAND AND WATER CONSERVATION FUND

LWCF in New York

Sterling Forest

With funding from LWCF matched by significant funding from private sources as well as the states of New York and New Jersey, the 17,500 acre Sterling Forest tract was permanently protected – ensuring protection of the drinking water for over 2.5 million New Jersey residents and protecting a huge block of forested land less than an hour from New York City. Development of this critical tract would have created significantly higher water treatment costs for northern New Jersey communities; LWCF funding paired with non-federal contributions helped avoid those increased costs.

Fiscal Year 2020 Agency Priority Project List for New York

Agency	State	Project	Amount	Delegation
FWS	CT/MA/ ME/NH /NY/RI	Great Thicket NWR	\$500,000	Schumer, Gillibrand/Delgado

Status of the Land and Water Conservation Fund

In 2019, permanent authorization of LWCF was secured as part of S. 47, the John D. Dingell, Jr. Conservation, Management, and Recreation Act. Passage of the Dingell Act ensures that LWCF no longer faces the uncertainty of potential expiration, and that the unique structure and inflow of funds to LWCF is protected. The focus is now on permanent full funding for LWCF – ensuring that each year the \$900 million deposited into the LWCF account actually goes towards conservation and recreation priorities. Over the 55 years of the program, over \$22 billion has been diverted from LWCF to other, unknown purposes. That means that our public lands, waters, and historic sites have been put in peril. As open space continues to shrink, LWCF investments become even more critical to providing the outdoor opportunities for all future generations

The Land and Water Conservation Fund Permanent Funding Act – S. 1081 and H.R. 3195 – have passed through their respective committees and are ready for floor votes in both chambers.

LWCF Appropriations FY2000-FY2020

LWCF is a simple idea: that a portion of offshore drilling fees should be used to protect important land and water for all Americans. These are not taxpayer dollars. Unfortunately, the promise of LWCF has been broken. The program is authorized to receive up to \$900 million each year—but most of these funds have been diverted elsewhere. Now is the time to fix this and ensure that funds retained in the LWCF account are used for their intended conservation and recreation purposes.

LWCF supports the acquisition of land and conservation easements to protect our national parks, wildlife refuges, forests, trails, and BLM sites, grants funds to the states for local and state park needs, protects critical wildlife habitat, watersheds and recreational access, and conserves working farms, ranches and forestlands that enhance local economies.
