STI Black Diamond

- Innovative "V" tread pattern bridges the gap between soft mud/snow/sand and hardpack surface performance.
- Unique over-center tread elements provide a smooth, controlled ride on hardpack, while offering excellent clean-out in soft conditions.
- 6-ply radial
- Extended-wear tread compound retains biting edges longer and greatly increases tire life.

WWW.MTAGOLFCART.COM

ITP Ultracross

- Low profile design provides superior handling on smooth, hard surfaces
- Tightly spaced, overlapping tread pattern lowers rolling resistance and enhances ride comfort
- 6 ply radial construction and a new, more durable rubber compound delivers longer wear and enhanced cut resistance
- Super deep Rim Guard feature offers the best wheel lip protection in the business, and still surprisingly light

Size	Ply	Tread Depth	Approx. Weight		
23x10R12	6	-	-	6P0250	\$110.43

Carlisle® AT489

- Great shock absorption capabilities.
- Outstanding traction for both 2WD and 4WD applications.

Size	Ply	Tread Depth	Approx. Weight		
23x8-12	3	.5"	13.6lbs	489329	\$146.49
23x10-12	3	.5"	17.6lbs	489330	\$155.58

Carlisle® All Trail & All Trail II

- Designed specifically for use on hard surface and paved applications.
- Perfect for the construction site, on the golf course, on a security patrol vehicle or anything else you can imagine.
- Offers a much smoother ride, more responsive handling and extra long life on hard surfaces compared to a standard knobby tire.

LED LIGHTS

Slasher LED lights are built to perform! Make sure you see where you go at night with our high quality lights. The Hyper and 3D Series are built using US made Cree LED's to ensure the highest light output and will stay bright for 30 000 hours. Slasher LED lights are made with impact resisting Polycarbonate lenses to ensure that rocks and branches will not damage your light source. The aluminum housing with it's heat sinks will prevent your light from overheating. In addition, the lights are IP68 rated to keep the elements away from vital components. Slasher LED lights are backed up by 1 year warranty on manufacturing defects.

HYPER SERIES

04-90017

Hyper series

Features:

- American made Osram LED chips
- Operating voltage: 10 to 30 Volt DC
- Light color: 6500K
- Operating temperature: -40°C to 60°C (-40°F to 140°F)
- IP68 Waterproof rating
- Combo beam (spot or flood for cubes)
- Military breather design
- Aluminum housing
- Polycarbonate lens
- 30,000 hours life time
- Mounting brackets included
- 1-years warranty

104-7030

Remote control

104-7030	Cabled remote	\$22.23
----------	---------------	---------

Winch wireless remote assembly

Includes: wireless remote, control box, and accessories. Fits all Quadrax winches. For security reason, the winch wireless remote has to be installed with mini-switch together and the red wire of mini-switch has to be connected to ATV key-switch. With ATV key-switch in off position, the remote and mini-switch can be on/off at same time, which will protect winch user from touching remote by mistake, also protect winch from starting accidentally or leaking electricity. Motovan will not take any responsibility in case of damage/injury because of wrong connections. This remote will fit most of winches in the market with right connection.

Quadrax handlebar mini rocker switch

Allows the rider to operate the actuator without removing the hand from the grip.

104-7034	Remote Control assembly	\$127.01	104-7028	Mini Switch sealed	\$15.60 ea

PROVANTAGE

The best of the best. For the hardcore, extreme user

WARN ProVantage powersports winches are built from premium parts and offer market-leading performance. Features include durable, reliable three-stage planetary gear trains; easy-to-use clutch controls; full sealing to keep the elements out; and an attractive, corrosion-resistant black finish. Whether you choose aircraft-grade wire rope or lightweight synthetic rope, when you want the ultimate winch for your ATV or Side x Side you want the ProVantage.

ProVantage 2500

With 2,500 lbs. of pulling capacity, this workhorse is equipped with premium components, and is ideal for recovering stuck ATVs on the trail or pulling heavy loads on the work site. With an easy-to-use clutch dial, powerful permanent magnet motor, and all-metal gear housing, this winch is a market leader.

- 50' of 3/16" wire rope and plow roller fairlead
- Hook, tie rods, and body feature attractive, durable corrosion-resistant black finish
- Three-stage planetary gear train for smooth, efficient operation
- Ergonomic clutch handle
- Patented roller disc brake for outstanding control while winching
- Fully sealed to keep the elements out
- Mini rocker control switch with plug for corded remote (remote sold separately)
- Warranty: Limited lifetime, 3 year electrical (North America)

W-PV2500 ProVantage 2500 winch **\$438.59**

ProVantage 2500-s

This winch comes standard with premium-grade components and 50' of 3/16" synthetic rope. This rope has market-leading strength, is lightweight, and is easy to handle—perfect for those who push the limits on the trails. This top-of-the-line 2,500 lb. capacity winch with all-metal end housings has all the features you want, and the durability and reliability you need.

- 50' of 3/16" synthetic rope with double-powder-coated hawse fairlead
- Hook, tie rods, and body feature attractive, corrosion-resistant black finish
- Three-stage planetary gear train for smooth, efficient operation. Ergonomic clutch handle
- Patented roller disc brake for outstanding control while winching
- Fully sealed motor and drive train to keep the elements out
- Mini rocker control switch with plug for corded remote (remote sold separately)
- Warranty: Limited lifetime mechanical, 3 year electrical

W-PV2500S ProVantage 2500 synthetic rope winch **\$571.19**

WINCH ACCESSORIES

Service/Upgrade Kits

The Warn wireless control system will work with Warn 1.5ci, 2.5ci, 3.0ci RT/XT, ProVantage and Vantage winches.

W-AC012 Wireless Remote only **\$56.11**

Replacement synthetic rope

Includes: Synthetic rope and rock guard sleeve.

W-AC016 Synthetic Rope Kit, 3/16" **\$83.80**

Service/Upgrade Kits

Weather resistant contactor handles high amps.

W-AC010 Handheld remote for PV25/35 **\$64.89**

Replacement Mini-rocker control switch

Handlebar mounted control. Replacement part for Warn® RT/XT15, 25, 30 series, 3.0ci, 2.5ci or 1.5ci ATV winches or the WARN® Plow actuator control. Includes: switch and mounting hardware.

W-AC008 Switch kit, Mini Rocker **\$52.75**

Mini-Rocker control switch with integrated socket

- This kit allows you to plug in a corded remote directly into the mini-rocker switch—no need to drill and install the socket like on existing systems.
- This allows you to conveniently winch while on or off the vehicle.
- Kit includes mini-rocker switch with socket, corded remote, and all necessary hardware.

W-AC009 **\$106.09**

Synthetic rope replacement kit

For use with all WARN ATV winches with aluminum drums. Includes: Synthetic rope and rock guard sleeve.

*Note: When replacing a wire rope with synthetic, it is necessary to replace the fairlead to avoid damage and wear to the synthetic rope from the rough surface of the older fairlead.

W-AC016K Synthetic Rope Kit, 3/16", W/Fairlead **\$123.41**

Replacement Wire Rope

Aircraft grade wire rope, galvanized to help resist corrosion. Includes swaged loop on one end.

W-AC014 Wire Rope Assy, 3/16" x 50 ft for Aluminium drum **\$52.03**

MEDIUM DUTY TIE-DOWNS WITH WEB CLAMP

Erickson's web clamp was designed to address the problem of what to do with extra webbing. The web clamp mechanism is much like a mouse trap, lift the spring loaded clamp and place the folded webbing under the clamp, release the spring loaded web clamp and you have trapped the excess web. Very simple and effective.

Ratcheting tie-downs with web clamp

• (2) 1" x 8' ratchet tie down • 1500 lbs maximum load

10-31351 \$16.99 pr

Deluxe tie-downs with web clamp & safety snap hooks

Wheel chock and tie-down strap kit
 • Kit includes: (4) powder coated E-Track wheel chocks and (2) E-Track ratchet straps 2" x 6' • Mount wheel chocks permanently then simply drive over for loading and unloading • Straps will work on tires as small as 10" and as large as 30" in diameter • Double slotted chocks allows for proper hook up of tires • Mounting hardware not included • Maximum Vehicle weight 1500 lbs. (680kg.) • Designed for use on both rear wheels

10-09160 \$50.99 (2)

Recovery straps
 • Feature a sewn end loop with an overlay of high-tenacity nylon to ensure longer life in the pull area where most of the wear occurs in this type of towing system • The sewn-in loop also makes it easier to attach the strap to the tow hooks on the vehicles • Heavy 415 series thread is used in the sewing process to ensure the advertised load limits are met or exceeded • When using, simply attach the loops to tow hooks on both vehicles, once the web tightens up, the webbing will stretch 10% to actually slingshot the stuck vehicle out • 1" x 15' • 7500 lb. (breaking strength) / 3750 lb. (maximum vehicle weight)

10-59350 \$11.99

Micro-Start Kits

World's smallest Jump starter and back-up battery!

We have all experienced a dead battery in our vehicle and the dread of not being able to start it, or that cell phone battery that went dead during that important call...The MICRO-START is a pocket size jump-starter and back-up battery supply for all your electronic devices and ends those problems forever. It fits in your motorcycle saddlebags, your back-pack or even a purse!

The Micro-Start PPS is the world's smallest and lightest jump starter. Take it with you anywhere and remain confident. The built-in extreme power lithium battery can hold a charge for up to a year. Whatever you do, don't get stuck without back-up power again.

Features:-

- It can jump start cars, trucks, motorcycles, ATVs, UTVs, snowmobiles and watercraft many times in a row
- It has a hi-power LED flashlight with 2 built-in flash signals including an S.O.S. flashing beacon
- It has a lighted battery capacity indicator
- It has built-in over-charge and over-discharge protections for long battery life
- It has an automatic power-off when not in use
- Supplied in a convenient carrying case

	<i>As small as a smart phone!</i>	<i>Ultra-compact!</i>	<i>The original mini-jumper!</i>	<i>Our most powerful!</i>
Comments	The ultimate for space savings. Can start up to V6 trucks. Also charges any USB devices.	Can start up to V8 trucks. Also charges any USB devices.	Can easily jump-start V8 trucks. Powers laptops, 12v devices and has 2 USB ports.	Starts diesel engines. Powers laptops, 12v devices and has 2 USB ports.

The Micro-Start XP-5 has a jump-start port and a USB 5v port. It comes with the following accessories :

- Detachable mini jumper clamps
- 1 4-into-1 USB cable to charge most USB devices like cell phones and other 5v USB chargeable electronics such as all cell phones, iPad, readers (Kindles), PSPs, GPS, tablet computers, and anything else using the 5V USB standard
- 1 Home charger
- 1 Mobile charger for plugging into cigarette lighter socket

The Micro-Start XP-3 has a jump-start port and a USB 5v port. It comes with the following accessories :

- Detachable mini jumper clamps
- 1 white universal USB Cable with 3 of the most common tips for cell phones and other 5v USB chargeable electronics such as all cell phones, iPad, readers (Kindles), PSPs, GPS, tablet computers, and anything else using the 5V USB standard
- 1 Home charger
- 1 Mobile charger for plugging into cigarette lighter socket

132-7036 Micro-Start XP-5 / 6,000 mAh **\$109.99**

132-7026 Micro-Start XP-3 / 8,000 mAh **\$129.99**

The Micro-Start XP-1 has a jump-start port, a 19v laptop port, a 12v accessory port and a USB 5v port. It comes with the following accessories :

- Detachable mini jumper clamps
- 1 black universal cable with 8 different detachable tips to fit all the different brands of laptop chargers
- 1 black universal cable for all 12v accessories such as mobile DVD players, or other 12v accessories
- 1 white universal USB cable with 8 different detachable tips to fit all 5v USB chargeable electronics such as all cell phones, iPad, readers (Kindle, etc), PSPs, GPS, tablet computers and others
- 1 Home charger
- 1 Mobile charger for plugging into cigarette lighter socket

The Micro-Start XP-10 has a jump-start port, a 19v laptop port, a 12v accessory port and a USB 5v port. It comes with the following accessories :

- Detachable SMART mini jumper clamps with built-in overcharge and reverse polarity protection
- 1 black universal cable with 8 different detachable tips to fit all the different brands of laptop chargers
- 1 black universal cable for all 12v accessories such as mobile DVD players, or other 12v accessories
- 1 white universal USB cable with 8 different detachable tips to fit all 5v USB chargeable electronics such as all cell phones, iPad, readers (Kindle, etc), PSPs, GPS, tablet computers and others
- 1 Home charger
- 1 Mobile charger for plugging into cigarette lighter socket

132-7024 Micro-Start XP-1 / 12,000 mAh **\$159.99**

132-7037 Micro-Start XP-10 / 18,000 mAh **\$209.99**

**Micro-Start Sport kit
World's smallest Jump starter and back-up
battery!**

Features :

- It can jump start cars, trucks, motorcycles, ATVs, UTVs, snowmobiles and watercraft many times in a row • 5v 2A USB port for charging all USB devices • High powered LED flashlight with 2 flash patterns, including an S.O.S flashing beacon pattern • Lighted battery capacity indicators • Built in over-charge and over-discharge, reverse polarity, short circuit protections • Automatic power off when not in use

**The Micro-Start Sport has a jump-start port and a USB 5v port.
It comes with the following accessories :**

- 1 set detachable mini smart jumper clamps • 1 universal 4-into-1 white USB cable with 4 of the most common connectors for electronics items (mini USB, micro USB, Apple 8 pin, and Apple 30 pin) • 1 Carry case

Specifications:

- 7500 mah • Charges by Micro-USB port (rather than wall plug) • 150A - 300A peak jump starting ability • 10 ounces • 5" (L) x 2.8" (W) x 3/4" (H)

132-7068	Micro-Start Sport / 7,500 mAh	\$99.99

ACCESSORIES AND REPLACEMENT PARTS

ODB2 Memory saver cable

Provides simple and convenient power while you change a vehicle battery. With this ODB2 Memory saver cable you can just take your pocket-sized Micro-Start and use it as the power supply to keep all settings in your vehicle while you change its battery. Just plug this ODB memory saver directly into the Micro-Start's 12V port. Never again lug around a big, heavy & bulky jumpstarter to keep the power to your vehicle's ODB port while you change the battery in your car or truck – a must-have for any mechanic!

132-7064	ODB2 Memory saver cable	\$15.99
-----------------	-------------------------	----------------

Clampless starting harness

Easily jump start your vehicle using just the Micro-Start without having to use the clamps, or having to remove the seat on your motorcycle. It is a 12" (300mm) harness that connects directly to the battery while the other end can plug directly into the Micro-Start's jumpstart port. It adds convenience and saves time if the situation arises when you have to jump start your vehicle.

Batteries
ADVENTURE SERIES

Multi-function lantern

• Multi-function camp lantern • Can be compressed to about 1.5" tall and then used as a flashlight too • Doubles as a Bluetooth audio speaker and a hands-free speakerphone • You can play or pause the audio directly from the lantern and you can also skip from song to song • But what is cool is that if a call comes in you can answer-it from the lantern itself and talk to the caller through its built-in microphone and speakerphone • It has a built-in lithium-ion battery that is easily recharged from any USB port • The perfect traveling companion for all your adventures or just to listen to tunes wherever you are • Comes with a fold-up handle you can use to hang-it « just like a lantern ».

132-7071

\$49.99

"Ultra-Light X" multi-function flashlight

• Compact, multi-function LED flashlight • Can also be used as a Bluetooth audio speaker, a hands-free communication device and a power bank to charge USB devices • The Ultra-Light X is a 3-piece modular unit and it can be used as a Bluetooth audio device and a flashlight at the same time • You can take off the removable head and replace it with the included extra speaker to get a fuller, louder audio experience • It has a built-in lithium-ion battery that is easily recharged from any USB port • Comes with a simple mount for hands-free telephone use and a USB Cable.

132-7072

\$49.99

"Ultra-Light XA" aluminium multi-function flashlight

• Rugged aluminum multi-function LED flashlight • Can also be used as a Bluetooth audio speaker, a hands-free communication device and a power bank to charge USB devices • Extremely water resistant, but not intended for underwater use • It has a built-in lithium-ion battery that is easily recharged from any USB port • Comes with a simple mount and a USB Cable.

THUMP-BUDS® CORDLESS BLUETOOTH EARBUDS

Are you tired of that annoying cable from your earbuds getting in the way and tying you to your phone or audio device and being yanked out when you turn your head or exercise? Antigravity Batteries solves that problem with our new THUMP-BUDS. Now you can enjoy your music, audio books, podcasts and even take phone calls free from cables. Just connect via BlueTooth and listen to high quality audio wherever your active lifestyle takes you, no cords, no hassle. Experience the freedom of movement!

Accessories included

Thump-Buds® cordless Bluetooth earbuds

- Complete control with skip track, pause and volume control
- Answer calls with a push of a button
- Pairs with any Bluetooth device
- 4 to 5-hour battery life with one charge

LIQUI MOLY ADDITIVES

Engine Flush

Cleaning fluid for clearing the engine interior of troublesome deposits. Dissolves sludge and lacquer formers. Flushes out and cleans the oil circuits of motorcycles with four-stroke gasoline engines. The frequency of use is dependent on the degree of contamination of the oil circuit and on the quality of the oil used.

270-1001 1X250ml **\$8.99 (case of 6)**

Fuel Stabilizer

Preserves and protects fuel against aging and oxidation. Prevents corrosion throughout the entire fuel system. Prevents problems from occurring when motorbikes, motor scooters, ATVs, snowmobiles and other gasoline driven 2-stroke and 4-stroke engines are decommissioned. Increases operational reliability. The product has a lasting effect.

270-1003 1X250ml **\$11.99 (case of 6)**

4T Bike-Additive

Removes deposits in the fuel system, in valves, spark plugs and in the combustion chamber and prevents renewed formation. That also reduces fuel consumption. Protects the entire fuel system from corrosion. Prevents carburetor icing. Cat tested. Add to fuel in all 4-cycle engines (carburetor and injection system).

270-1000 1X125ml **\$9.99 (case of 6)**

Speed Additive

State-of-the-art, ash-free combination of agents with acceleration enhancing, cleaning, dispersing and material-protecting properties. Ensures increased driving enjoyment due to optimized performance. The engine starts easier and also runs smoother. Added to the fuel of all 4-stroke and 2-stroke gasoline engines.

270-1002 1X125ml **\$10.99 (case of 6)**

ACF-50® Anti-corrosion fogging oil

Kills and stops corrosion on contact. It penetrates, protects and lubricates.

- Approved for use on all metals & electronics
- Can be sprayed on, wiped on or fogged for complete protection
- Clear ultra thin fluid film leaves a non-greasy atmospheric barrier to protect base metal
- Spray directly into electrical connections and components to prevent corrosion induced failures
- Chemically neutralizes the corrosive effects of road salt
- Will not dry out or trap moisture in
- Excellent vehicle storage preparation and protection
- Remains active up to 12 months

Corrosion Block®

Corrosion Block is a clean fluid that actively protects metal using advanced polar bonding chemistry. Synthetic additives in Corrosion Block completely penetrate corrosion cells...replacing the salt and water which is then allowed to evaporate. Corrosion Block's hydrophobic film remains to further protect the metal acting like an "OFF SWITCH" for corrosion. Corrosion Block is an anti-corrosion compound developed exclusively to stop existing corrosion and prevent new.

- It is unique in that it is designed for use in electrics and electronics as well as metals and structures
- Superior anti-corrosion compound
- Prevents new corrosion cells from forming for extended periods up to 18 months
- Is an excellent penetrant and light lubricant
- Kills existing corrosion
- Excellent Penetrant
- Non-Toxic & Environmentally Friendly

Corrosion Block® Grease

Multi purpose high performance grease, won't soften, breakdown or wash out.

Corrosion Block Waterproof Grease is designed to provide maximum protection under severe conditions. Its formulation provides both high and low temperature performance, increasing the service life of critical components. Corrosion Block Grease strongly resists water wash out and provides superior protection against rust and corrosion. Corrosion Block Grease outperforms lithium and most synthetic greases and meets or exceeds all OEM requirements.

- High performance petroleum blend featuring an advanced high temperature additive system. Motorcycle specific 4T oil ASO grade MA API SG/ CO.

X34901 10w40, Liter 12(Case) **\$7.95**

Maxima® Maxum 4 Synthetic Blend

- 100% synthetic oil formulated for high performance 4 cycle engines.
- Advanced additive system used to provide the ultimate performance with reduced friction and engine temperatures.
- Motorcycle specific 4T oil JASO grade MA API SG/CO.

X34901B 10w40, Liter 12(CS) **\$10.50**

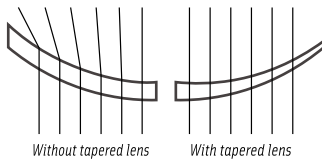

FEATURES EDGE EYEWEAR

TPR TECHNOLOGY

Thermoplastic rubber (TPR) is a soft and pliable compound that increases its "grip" as it becomes warm or moist from perspiration. This technology is used in temple tips and nose pads to prevent slipping and keep glasses on the face.

LENS TECHNOLOGY

Tapered lenses eliminate refraction

- Lenses filter 99.9% of UVA/UVB/UVC rays
- Fog resistant lenses improve visibility
- Triple dipped anti-scratch coating
- Polycarbonate lenses comply with:
 - CSA Z94.3-07
 - ANSI Z87.1+2010
 - Military MCEPS GL-PD 10-12

FRAME TECHNOLOGY

- Frames are made with a flexible and durable TR90 ~~Non-polymerized~~ compound
- Wrap-around frame has no side shield distortion
- Straight temple arms rest comfortably on the head and don't pinch

TEST VIDEOS

Visit www.edgeeyewear.com/site_canada/media.php to view videos showing the strength of EDGE safety glasses.

STANDARDS

What is CSA Z94.3-07?

All Canadian eye safety standards are created by CSA. CCOHS enforces these standards and functions as the primary national agency in Canada for the advancement of safe and healthy workplaces and preventing work-related injuries, illnesses and deaths. Additional work in this area is carried out by provincial and territorial labour departments and workers' compensation boards.

What is military MCEPS GL-PD 10-12? (Ballistic standard)

The current Military Combat Eye Protection Systems (MCEPS) standard is called MCEPS GL-PD 10-12 which superseded the MIL-PRF-31013 standard in April of 1996. This standard contains ballistic fragmentation tests that determine eyewear compliance. The Military MCEPS standard contains a series of tests that are much more intense than CSA or ANSI, to simulate projectiles and dangers faced in combat.

Luminous Transmission Test

A test that measures the fraction (percentage) of light passing through a medium (polycarbonate lens.) Requirements: • Clear Lens: Must have a minimum of 85% VLT (Section 5.1.2) • Tinted Lens: Must have a minimum of 8% and a maximum of 85% VLT (Section 7.1.2 - Table 10) (CSA Handbook: Section 6.4.6)

OPTIONAL FEATURES

Vapor Shield® Anti-Fog

Most situations can be handled with a standard Anti-Fog lens, but for extreme environments, Edge Eyewear developed a revolutionary, military grade anti-fog coating called "Vapor Shield®." It is absolutely impervious to fog.

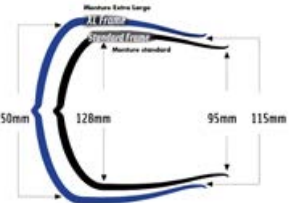

Foam Gasket Lining

A foam gasket is essential to safety in environments with high levels of airborne debris, dust, or wind. By creating a "seal", this technology keeps foreign particles out of the glasses and away from the eyes.

XL (wide) Fit

Head size varies from person to person, and certain glasses can present a problem for larger heads; some people find standard-sized glasses to be too small on the face or tight in the temples. The solution is a wider frame that not only feels comfortable, but also looks natural (XL frames are +/- 18% wider).

Aqua Precision Lens

The unique properties of this lens effectively block the transmission of infrared light while also reducing excess blue and red light on both ends of the light spectrum. The result is ultimate optical clarity and contrast, especially in the brightest light conditions.

Without Aqua Precision Lens

With Aqua Precision Lens

Price may change without notice. Please log-in to www.mtadealerconnect.com for the most current pricing.

WWW.MTAGOLFCART.COM

OPTIONAL FEATURES (CONT.)

Multi Fit Adjustable Nose Bridge

Adjustable nose pads glasses are specifically designed to fit a variety of facial and nose bridge structures. With the addition of an adjustable nosepiece, a perfect fit can be achieved by bending each flexible nose pad inward, outward, forward, or backward.

Fit Over

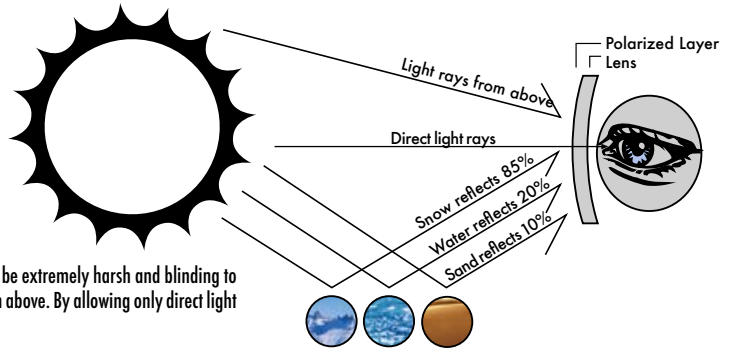

Visual clarity is essential to safety, and for some, a magnifier lens isn't enough to read or see finite details. Edge Eyewear's larger safety glasses comfortably fit over prescription glasses.

Ladies Style

Ladies glasses are designed to meet fashion standards for women, while also maintaining their safety rating. Edge ladies glasses won't ride on the cheekbones, won't touch the eyelashes, and are made with materials that will not snag the hair.

Without the Polarized Lens With the Polarized Lens

Polarized Lens

In 1999, Edge Eyewear became the first company ever to offer polarized lenses for safety glasses. Light can be extremely harsh and blinding to the eye. Polarized lenses feature a special filtering layer that blocks reflected light from below and glare from above. By allowing only direct light to enter, this lens maximizes the ability to see without excessive blinding light.

LIGHT TRANSMISSION GRAPHS

ALL EDGE EYEWEAR LENSES PROVIDE 99.9% UV PROTECTION - HIGHEST LEVEL OF PROTECTION ON THE MARKET

Bright Sunny Conditions

Desert Conditions

Hazy Conditions

Cloudy Conditions

Indoor or Low Light Conditions

Partly Cloudy Conditions

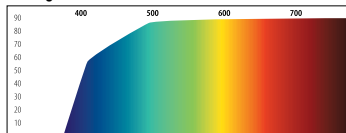

Snowy or High Altitude Conditions

Water Conditions

Clear

is the classic lens color for safety glasses. Clear lenses offer the greatest amount of visible light transmission, making them ideal for indoor and low light conditions.

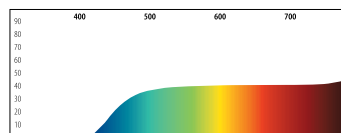

85% Light Transmission

Anti-Reflective

lenses are great for indoor and outdoor conditions. A light silver mirror coating on a clear lens reflects light that hits the lens' surface, resulting in a reduction of reflection and glare.

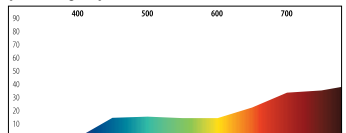

65% Light Transmission

Smoke

lenses provide the perfect all-around tint for bright light conditions. This popular lens color blocks the brightest sun rays and glare without producing any color distortion.

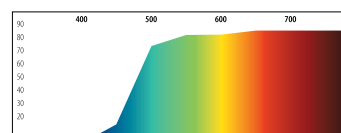

16% Light Transmission

Yellow

lenses make dull, overcast, and foggy conditions appear brighter and filter low levels of blue light. This lens color increases depth perception and contrast during dawn or dusk activities, including driving.

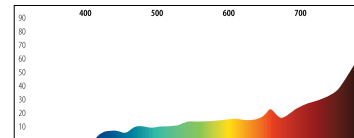

80% Light Transmission

Polarized Gradient Smoke

lenses have a vertical smoke-to-clear tint that equalizes harsh light from above and soft light from below. A favorite for daytime reading and driving. The addition of a polarizing filter increases clarity by reducing glare.

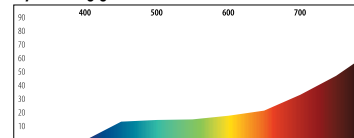

16% Light Transmission

Polarized Smoke

lenses provide the perfect all-around tint for bright light conditions. This popular lens color blocks the brightest sun rays without producing any color distortion. The addition of a polarizing filter increases clarity by reducing glare.

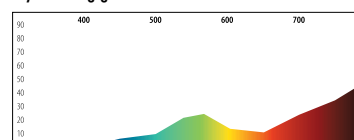

14% Light Transmission

Polarized G-15 Silver Mirror

lenses provide contrast and image definition while maintaining a neutral, true-to-life perspective. A silver mirror coating adds a reflective layer to the cooling properties of a green-colored base tint, pioneered by the U.S. Air Force. The addition of a polarizing filter increases clarity by reducing glare.

Day2Nite

Lenses that change with the light

These smart lenses change with the amount of available light. On bright sunny day, the lenses are smoke to give better protection. On cloudy day or at nighttime the lenses are clear to allow maximum visibility. No more need to carry 2 or 3 different pairs of sunglasses or goggles, one does it all.
