## Exaktbox

<p><b>Klimax Exaktbox</b></p> 	<p>The on-board Exakt digital crossover delivers the most natural sound available by perfectly aligning all the frequencies produced by each note.</p> <ul style="list-style-type: none"> <li>• 6 channels</li> <li>• Features Katalyst DAC Architecture</li> <li>• 1 Exaktbox supports up to 3-way speakers (stereo mode)</li> <li>• Supports up to three-way dual mono</li> <li>• 2 Exaktboxes support up to 6-way speakers (mono mode)</li> <li>• Enclosure machined from solid aluminium</li> <li>• Dynamik Power Supply</li> </ul>	12,000
<p><b>Akurate Exaktbox 10</b></p> 	<p>Providing unprecedented flexibility, Akurate Exaktbox 10 delivers all the benefits of Exakt technology to your current speakers.</p> <ul style="list-style-type: none"> <li>• Exakt digital crossover with 10 channels of DAC</li> <li>• Supports up to 5-way speakers</li> <li>• Balanced (XLR) and unbalanced (RCA) analogue outputs</li> <li>• 2 Exakt Link connections</li> <li>• Dynamik power supply</li> </ul>	5,400
<p><b>Akurate Exaktbox 6</b></p> 	<p>Providing unprecedented flexibility, Akurate Exaktbox 6 delivers all the benefits of Exakt technology to your current speakers.</p> <ul style="list-style-type: none"> <li>• Exakt digital crossover with 6 channels of DAC</li> <li>• Supports up to 3-way speakers</li> <li>• Balanced (XLR) and unbalanced (RCA) analogue outputs</li> <li>• 2 Exakt Link connections</li> <li>• Dynamik power supply</li> </ul>	3,800
<p><b>Majik Exaktbox-i</b></p> 	<p>Combining all the benefits of Exakt with 8 channels of 100 W Chakra amplification, this amazingly versatile unit is capable of upgrading any Exakt-compatible speaker, up to 4-way. Connected using Exakt Link, it's the ideal partner for Majik DS or DSM.</p> <ul style="list-style-type: none"> <li>• Exakt digital crossover with 8 channels of DAC</li> <li>• 8 channels of 100 W Chakra amplification</li> <li>• 2 Exakt Link connections</li> <li>• 8 speaker outputs</li> <li>• Dynamik Power Supply</li> </ul>	3,950
<p><b>Exaktbox Sub</b></p> 	<p>Specifically designed for use with subwoofers, you can seamlessly integrate any subwoofer with an Exakt system, making the whole system phase linear down to 0 Hz.</p> <ul style="list-style-type: none"> <li>• Digital crossover with 2 channels of DAC</li> <li>• 2 Exakt Link connections</li> <li>• Supports 2 subwoofers in mono mode</li> <li>• Supports 1 subwoofer in stereo mode</li> <li>• Compatible with all subwoofers</li> </ul>	1,360

## Custom Install

Delivering a truly immersive listening experience with powerful performance and complete flexibility, Linn's custom install range has been created to be heard and not seen.

### Source

<p><b>Sekrit DS</b></p> 	<p>Designed to impress with its sound, not its size, the Sekrit DS is a versatile player with built-in power amplifier and Space Optimisation.</p> <ul style="list-style-type: none"> <li>• Streams any digital source over your network</li> <li>• Supports virtually any digital format up to 24-bit 192 kHz</li> <li>• Integrates seamlessly with Tidal &amp; Qobuz lossless streaming</li> <li>• Integrated 20 W per channel power amp</li> <li>• Deltron speaker connections</li> <li>• Space Optimisation built-in</li> </ul>	1,200
<p><b>Sekrit DSM</b></p> 	<p>Designed to be heard and not seen, the Sekrit DSM is an incredibly powerful and flexible player with built-in pre and power amplifiers alongside digital and analogue inputs.</p> <ul style="list-style-type: none"> <li>• Rack-mountable chassis</li> <li>• Streams any digital source over a standard network</li> <li>• Supports virtually any digital format up to 24-bit 192 kHz</li> <li>• Integrates seamlessly with Tidal &amp; Qobuz lossless streaming</li> <li>• Digital &amp; analogue inputs</li> <li>• Speaker connections</li> <li>• Integrated 33 W per channel power amp</li> <li>• Configurable to power two speaker zones</li> <li>• Neutrik speaker connections</li> <li>• Space Optimisation built-in</li> </ul>	1,750

### Speakers

<p><b>104C-R</b></p> 	<p>104C provides a more compact alternative to the 106C, making it a high performance yet flexible option for walls or ceilings.</p> <ul style="list-style-type: none"> <li>• 3-way in-wall / in-ceiling speaker with acoustic enclosure for consistent high performance</li> <li>• Available in round or square versions</li> <li>• Quick and easy-to-install design enables fitting from the front</li> <li>• 2K driver array provides wide and even high frequency dispersion</li> <li>• Solid and cavity wall back-boxes and rough-in brackets available</li> <li>• Paintable grille and enclosure (comes supplied with paint mask)</li> </ul>	345

<p><b>Unik</b></p> 	<p>Great audio performance from a compact and shallow enclosure, ideal for use discreetly mounted on walls.</p> <ul style="list-style-type: none"> <li>• 2-way on-wall or free-standing speaker with bass reflex port</li> <li>• Paintable grille</li> <li>• Flame retardant, UV stable composite cabinet</li> </ul>	<p>150</p>

## Technology

### Space Optimisation

Space Optimisation uses sophisticated acoustic modelling to build up a complete picture of how the speakers, their placement, and the unique characteristics of a room interact to affect the sound heard. It then precisely identifies frequencies that are artificially distorted by the environment, and reduces their energy, to reveal the music that would otherwise be hidden.

All Linn systems have Space Optimisation built in, and it's a free software upgrade to all Linn DS owners.

### Exakt

Exakt technology preserves the natural sound of every instrument by synchronising the elements that make up every note, including all the harmonics.

Available through the addition of a Linn integrated speaker or Exaktbox to your system, it uses Exakt Link to connect to your Linn DS or DSM player. All current Klimax, Akurate and Majik models have Exakt Link connections on-board, ready for the ultimate system upgrade.

### Katalyst

Katalyst takes an unprecedented level of control over the critical elements that lie at the heart of the analogue signal's creation; offering improved Data Optimisation, superior Master Clock, independent Power Supplies, a new ultra-low distortion Output Driver and crucially, for the first time, a high-stability input Reference Level.

The latter is vitally important because, at the point of creation, the analogue audio signal is particularly vulnerable even to miniscule variations in the Reference Level, which cause irreversible damage.

Katalyst's high-stability input Reference Level eliminates variations during analogue signal creation, giving a deeper insight into the music being played.
