Safety Recognition
• Portland Cement Association Chairman’s Safety Performance award 2012
• Texas Aggregates & Cement Association First Place Safety & Maintenance award 2012, 2010
• Ash Grove Presidents Silver Safety award 2008, 2006

Environmental Leadership
• Environmental management system certified under ISO14001:2004
• $125 million modernization in 2014 to comply with new federal air regulations
• Since 1996, reduced NOx emissions by 85%, SO2 emissions by 99%, mercury emissions by 87%, dust emissions by 72%, CO2 emissions by 31% and methane emissions by 70%
• The use of tire-derived fuels at the site reduces its reliance on fossil fuels and helps remove thousands of tons of used tires from the waste stream annually
• Recognized by industry and regulatory entities for its efforts in reducing smog forming emissions and for compliance with various regulations
• New kiln line utilizes SNCR for NOx reduction and activated carbon injection for mercury control

Commitment to Our Community
• Employees deliver lunch and breakfast meals weekly in Midlothian in partnership with Meals on Wheels
• Volunteer and sponsor lunches at the Midlothian Senior Activity Center
• Hosts outdoor education events on the property
