Frequently Asked Questions About HPIP's Insulation Credentials For Job Corps

Question: How much does it cost to bring the HPIP Primary Insulation Credential to my center?
Answer: As of June 1, 2020 we will be offering scaled pricing for the Primary Credential and a flat rate of $99 per student for the Secondary Credential.

Scaled Primary Credential Pricing Per Student:
<20 = $150                     21-50 = $125                     51-100 = $99                     101+ = $90

Question: What are the requirements for Job Corps instructors to teach with this credential?
Answer: HPIP requires that any instructor that will be utilizing and training students with the credential must take and pass the coursework themselves first. Six months after initial implementation of the credential at your center, those instructors are required to attend a live hands-on insulation training workshop that HPIP hosts. We will work with your center on arranging travel and lodging accommodations.

Question: How long does it take to complete the Primary Insulation Credential?
Answer: The Primary Insulation Credential is rigorous in its content, but is flexible in how each center can implement it. Some centers work the content into a 4 week program, and others have adjusted their curriculum to fit an 8 week program.

Question: How long does it take to complete the Secondary Insulation Credential?
Answer: The Secondary Insulation Credential generally takes 2 weeks to complete depending on your center’s classroom structure.

Question: Does HPIP offer the insulation credentials in Spanish or any other languages?
Answer: HPIP is working to develop our coursework in Spanish to eliminate the language barriers that many students and insulation installers face in this industry. We will be offering this in the future.

Question: How do we use HPIP’s insulation coursework?
Answer: HPIP’s Primary and Secondary Insulation Credentials are hosted in our online learning management system and completely web-based with the exception of some supplemental reading materials. Once your order is processed, our staff will work with your instructors and give a short tutorial on how to use the system and add students.

Question: Do seats expire?
Answer: No, seats do not expire. If you don’t use all of the seats you purchased for this year, they will roll over to the next. If you ever need to pause your use of the credential temporarily for any reason, those seats will be there when you decide to go live again.

Question: Is there a minimum or maximum of seats that can be purchased?
Answer: We prefer not to sell less than 20 seats of the Secondary Credential at a time. With our price change effective on June 1, 2020 it will be more affordable for your center to purchase more than 20 seats of the Primary Credential at a time. There is no maximum amount of seats that you can purchase at a time.
