

Blueprint 181

Investing. Growing. Leading.

Lowell Elementary, May 11, 2017

Attendance: 49 total (5 admin, 2 board, FJJ: 1, WSN: 1)

Make the right choices for the students even if it isn't popular
Listen to ppl who are in the school regularly listen to kids
Student needs first
Kids stay #1 in the plan
Fiscally responsible
LISTEN
This is for OUR children for the future
This will impact the future
Do what is best for kids always
Listen to the teaching staff
Keep listening to staff and kids
Be visionary
It is ALL of our responsibility
Build big enough for the future
Look out 10, 15, 25 years
Keep students as central focus of decision making
Add curriculum for life skills, i.e., cooking
Don't get hung up on the negative feedback
Try to avoid knee-jerk decisions
Teachers at all levels know...listen to them

Two options to taxpayers so it's not a yes or fail

Public is talking about revamp or rebuild or one elementary school for all...a lot of miscommunications...will all of this information from the listening sessions be shared in another session?

Any plans to put this community forum on Public Access TV?

Will you be reaching out to retirees?
