

wildrock

Eco-Escape Room: Mystery in the Meadow (Grades 6+)

Students divide into small groups to tackle ecology-themed challenges all across Wildrock's campus. Challenges introduce stewardship principles and some of the ecological processes unfolding at Wildrock every day. Each team brings back what they have learned for a capstone conversation at the end of the 2 hour challenge. Maximum program capacity is 65 students.

This trip can be extended to include farm, playscape, and trail exploration for an added fee.
