

# SPEAK UP WEEK

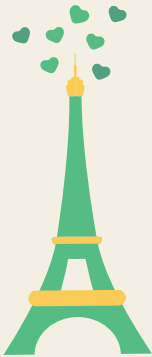

30 JUNE - 8 JULY

## WHAT IT'S ALL ABOUT

The Speak Up Week is our chance to have a climate heart-to-heart with our MPs and encourage them to become champions for climate solutions.

Whether this is your first time talking about climate change or you're on first name terms with your MP, the Speak Up Week is for everyone and hundreds of events are already popping up in all corners of the country—from friends gathered around a pot of tea to MP surgery visits.

## CLIMATE CONTEXT

Ten years ago MPs across parties came together to create the world's first Climate Change Act in the UK. Since then, we have worked hard to ensure that successive governments implement this law by cutting emissions and adapting to climate change.

But in ten years the world has also moved on: many other governments have set their own laws and targets, some more ambitious than the UK's, and the world came together to set the Paris Climate Agreement in 2015.

## WHAT WE ARE CALLING FOR

This Speak Up Week, we will be joining with others to call for the UK's Climate Change Act to be strengthened to match the ambition of the Paris Climate Agreement. This is a big ask, but we can be a powerful bunch when we work together and push for change.

*For more information about the events happening in your area, how to host your own and to download resources, please visit [speakupweek.org.uk](https://speakupweek.org.uk)*
