

WINTER 2019

.....

**E** HEAVEN IN EARTH  
*where useful is beautiful*

.....

Good for the home Good for the Earth

Heaven in Earth are merchants of well-made and elegant tools for the home and garden. We specialize in products that complement and enhance every day life, and believe in authentic wares made for the task at hand that will provide use and satisfaction for years to come.

Heaven in Earth began in Sydney, Australia in 2006, founded by expatriate, American Jocelyn Van Hoven. It began with a focus on the garden, an outgrowth of Jocelyn's background in landscaping and horticulture. But over the years, Heaven in Earth has come to offer as much inside the home as it does in the garden. We proudly came back home to North America with our best in early 2018.

Heaven in Earth takes its slogan--Where Useful is Beautiful--to heart. The tools and decor we offer are things that can be used and admired year after year in every room of the home. Our product range includes brushes of every size and purpose, kitchen tools and linen, home accessories and thoughtful items for the garden. They are items that will provide use and satisfaction for years.

Please direct all sales orders and inquiries to Aesthetic Movement
