

ALNA PLANNING BOARD SITE VISIT

Date: May 15, 2020

Time: 5:30 PM

Present: Jeff Spinney, Laurie Hiestand, Tom McKenzie, CEO

Applicant: Joan Belcher

Location: 111 Sheepscoot Rd, Map R1, Lot 46

We walked to the waterfront to see that the CEO had measured from the upland edge of the Resource Protection Zone. And we saw the location for the greenhouse. The applicant said no fill was needed but she thought the greenhouse company would set it up on the site. She said she was not in a hurry now that the early growing season was over. She will get more information about how it will be set up on her site.

Laurie took photos of the area that Tom measured to the proposed site and it was outside of the 150 ft Zone. He used his measuring wheel and we all walked the distance from upland edge to edge of proposed greenhouse.

Respectfully Submitted,

Laura Hiestand

Planning Board Secretary
