North American Working Bouvier Association Carting Trial Purpose

The NAWBA carting trial is a set of exercises designed to demonstrate the abilities of the Bouvier des Flandres to work as a team with its handler. The dog should show enjoyment and willingness to maneuver a cart through obstacles and haul freight for a distance. These exercises are meant to show the skills and training needed in a real working situation. However, never become so serious that the fun goes out of working for either you or your Bouvier.

Entry Details

There will be a limit of 20 entries for this Carting Trial.

- o Entries due no later than Wednesday, March 7, 2018. Entry Fees: \$35 for each single dog team and \$45 for a brace team
- o Brace Entries: A separate entry form must be filled out for each dog of a brace team and then stapled together. Even though two entry forms are required for each brace team, each brace team will be counted as one entry in the Carting Trial entry limit.

Only dogs passing the individual division prior to the brace trial will be eligible to compete in the brace division. Proof of individual title is required. *A dog meeting the requirements may enter both a brace and an individual trial.*

Entries will be accepted by mail only. Entry slots will be filled according to the postmark date. If the number of entries with the same date exceeds the number of available slots, a drawing will take place to fill the vacancies and determine the alternates. All entries received after the entry limit is filled will be placed on an “alternate list” by order of postmark.

Carting Test Purpose

The Carting Tests of the American Bouvier des Flandres Club (ABdFC) are a series of exercises designed to develop and demonstrate the natural abilities of the Bouvier des Flandres in a cart-pulling environment with a handler. While working in a capacity involving hauling, the dog and handler must demonstrate teamwork skills. The Bouvier des Flandres has historically functioned as a carting dog in various capacities and the performance of these exercises is intended to demonstrate skills resulting both from natural ability and training that are applicable to realistic work situations.

Dogs must be willing to work with their handlers and the exercises must be accomplished efficiently. The goal of each handler is to maintain control while encouraging his/her dog's natural independence; together, they demonstrate teamwork. Since a dog can perform carting work only in cooperation with a person, each handler must demonstrate an understanding of carting work with the dog's ability, training, and equipment.

Levels Offered

Novice Draft Dog—NDD
Novice Draft Dog-Veteran—NDD-V

Dogs that have earned the NDD but are not ready to advance to DD may continue carting at the novice level and earn the title Advanced Novice Draft Dog, ANDD. This would also include Advanced Novice Brace Draft Dog ANBDD – To earn the ANDD, the dog would have to qualify in 3 NDD tests with at least 2 of them being ABdFC NDD.
