

SHOW PLANT ENTRY, REGISTRATION AND SETUP

- All registrants must fill out a plant registration form for each plant at the table outside the display room. To save time, fill out and/or print the entry form (see below), filling out all fields before you arrive. Cutting each entry form slip in advance of your arrival will also be appreciated.
- Once plants have been registered at the front desk, volunteers will be available in the display room to help direct registrant with the placement of their plants.
- Individuals who are not displaying plants will not be allowed to enter the display area prior to 12N. Registrants who are displaying plants are to set up their displays and then immediately leave the display area to avoid unnecessary congestion. All entries must be in place before 10:30AM SHARP!

- Containers must be clean and free of dirt, glue from old nursery stickers, cracks and/or breaks.
- If necessary, plants should be staked or supported to present the plant at its best. Carefully place plants, art or displays in such a fashion so as not to disturb neighboring plants or displays.
- Registrant must have grown all of their plant entries for a minimum of six (6) months. Registrant submitting artwork must have designed, manufactured, or photographed the entry themselves.
- Registrant selects only one category per entry. For example, if entering three or more *Drosera* species in a dish garden container that was made in a ceramics class, registrant can enter it in EITHER the Sticky, Arrangement, or Art category.
