

**Paetec Communications** – Has multiple responses from merging companies so they may do well if there is significant rationing. They have the spreadsheet.

**PBNext** – Sent small list and called.

**Phone.com** – resent the email and spreadsheet after following up

**Phone People** – They received the list but will be putting them through Sprint.

**Pioneer Telephone** - Was happy to get their list and will definitely go after them for their customers.

**POPP.com** – Emailed list to Jamie Nelson at Popp.

**PowerNet Global (PNG)** – They didn't have much in place for 855 numbers, but were very responsive and happy to have the list.

**Primus** – They received the spreadsheet and will use the list to coordinate with the requests received directly from the customer.

**Qwest** – Responded that they appreciated the list and will work directly with these customers to get the numbers.

**Rogers** – We sent the requests to Yolanda Santos but are still waiting for their confirmation, checking with supervisor.

**Sprint** – Sent spreadsheet of requests to Rose Cherry and left multiple messages.

**Telcan** – Was very happy to receive the list and will definitely request them for the customers and offered to request numbers for additional customers too.

**Telepacific** – They don't seem interested in pursuing 855 numbers for their customers. "They have a different way of doing things" and they certainly didn't seem to care that much about their customers and wouldn't even contact the customers we gave them to confirm the requests. They're usually not a bad company but this made them look awful.

**Teliix** – Sent the spreadsheet to a couple people after being bounced around a little.

**Telus** – They were interested and we sent them the spreadsheet and followed up with phone calls.

**TNCI** – Sent the list to a couple people in the toll free department a couple times.

**TotalCall** – See Opex.

**TW Telecom** – Sent twice to Jody Burke in Toll Free Department

**UCN (InContact)** – They confirmed that they've added our list to the list they are compiling to go after.

**Uni-Tel** – Sent the spreadsheet and left messages for Robert Blumberg.

**Veracity** – will be going after the numbers for their customers.

**Verizon** – Their new toll free dept will only accept emails. We have emailed the spreadsheet and sent follow up emails but no response.

**Virtual PBX** – They're happy to have the requests and are looking forward to us sending a second list just before the Oct release.

**Vitality** – We sent the spreadsheet and left some messages.

**XO** – We sent them their spreadsheet of requests and left some messages but didn't get much response.

\*\*\* Companies with 5 or less requests were left off of this list to save space. \*\*\*
