What is Zoom, and how do I use it?

Zoom is online meeting software we can use to help stay connected. When the time comes (7:30 am or 5:30 pm CST), click the link above. This works on a computer, tablet, iPad, or smart phone.

You should not need the meeting ID unless you are calling in by phone. Once you click on the link, it will ask if Zoom can run on your computer. Click “yes,” and the Zoom meeting window should open.

There is also a call-in option if you are unable to try the online video. Video is recommended if your computer or device has a webcam or camera, but if you don't you can use the call in numbers.

You do not need to be signed up with Zoom to join meetings.
