About

7 time winner Home Depot Partner of the Year

390+ products

Privately held organization of innovators

Unique Challenges

Improve communication

Share company news and progress in effortless and timely manner with less reliance on tools such as email.

Connect Team Members

Increase employee engagement and build connected culture where everyone is in the know about the company and other team members.

Eliminate Paper Trail

Improving efficiency and reducing footprint on resources by automating paper process.

What We Did About It

Peak's brand new intranet is packed with everything team members need to communicate, connect, and get work done. Everyone is on the same page thanks to an integrated platform replacing scattered emails. The new solution streamlines the team's valuable time and resources making it win-win for everyone.

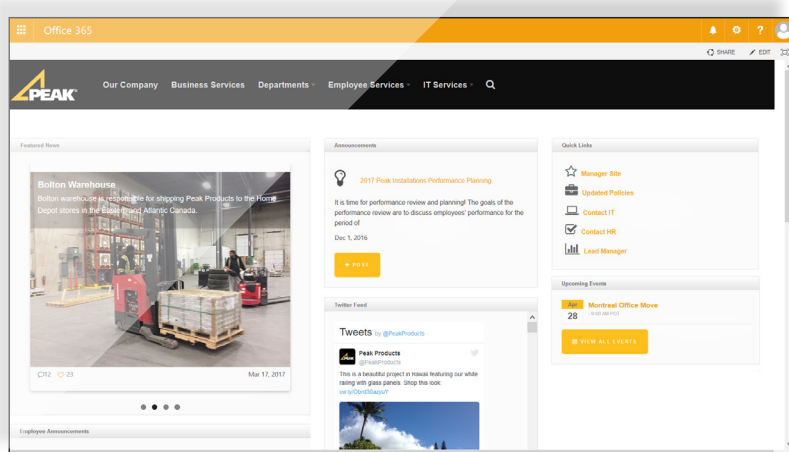

With an employee recognition feature and news carousel, team collaboration is taken beyond simply working together. Peak's intranet connects departments, leading to quicker interdependent work and ultimately faster service responses.

Results

Communication improved dramatically. Geographically distributed teams can now communicate on one platform. No more missed memos or constant email forwarding.

New employees find all the necessary resources and people in one place. The Shout Outs wall helps everyone feel more connected.

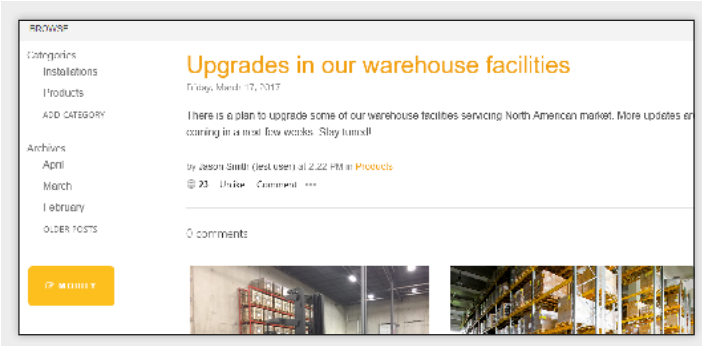

Workflow is more efficient with a digitized workplace so employees can spend their time more productively.

Key Features

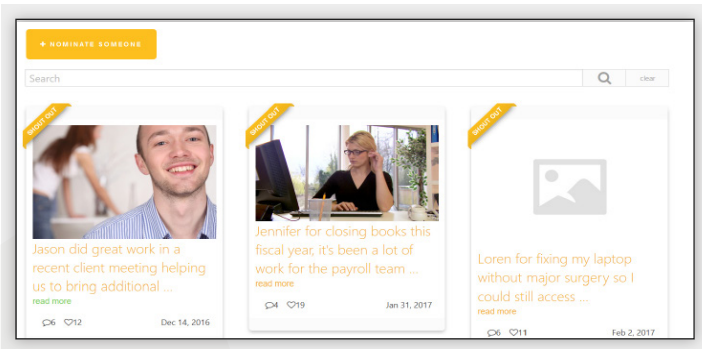

News and Events

The latest relevant company news is at the team's fingertips. Everyone is kept up to date on important tasks, company goals, and organizational accomplishments.

Recognitions and Shout Outs

With the Shout Outs feature, team members can recognize individual innovation, success and job well done inspiring others and building stronger culture.

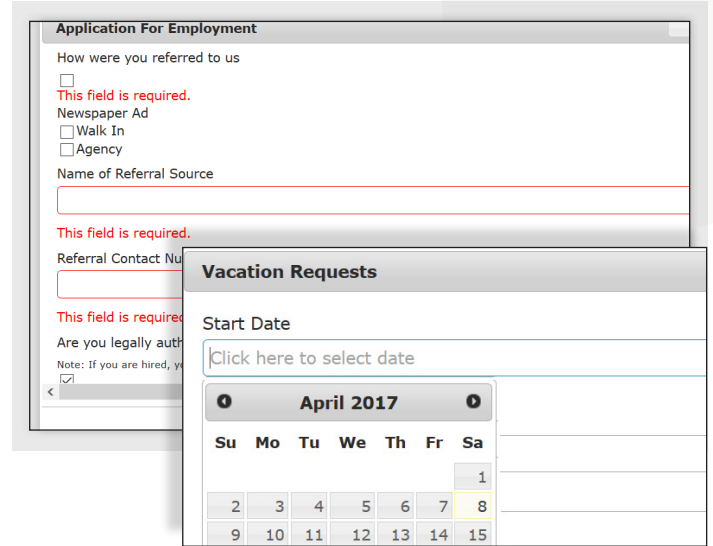

Mobile Ready

A fully mobile compatible platform allows Peak's teams to take work wherever they go. Forms and widgets adapt seamlessly to the format in which they are viewed.

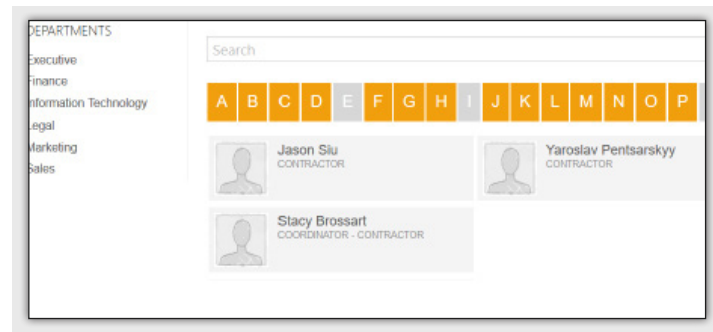

HR Forms

Digital HR forms and questionnaires reduce paperwork, and promote record keeping. Peak will save hours on data entry. Submitted forms are automatically saved as PDF as well as available in SharePoint in a structured format for future analysis and reporting.

Directories

Team directory feature allows to locate anyone quickly by region, department, or simply by their name search.

Solution Details

- ✔ SharePoint Online on Office 365
- ✔ Interface Design and Information Architecture
