The ZIKA VIRUS is linked to miscarriages and birth defects.

ZIKA primarily spreads through infected mosquitoes.

You can also get ZIKA from sex with an infected partner.

**PREVENTION**

- **WEAR LONG-SLEEVED SHIRTS AND PANTS**
  to reduce exposure to mosquitoes.

- **USE INSECT REPELLENTS**
  that are registered with the Environmental Protection Agency.

- **TOSS OUT ANY STANDING WATER**
  or use larvicide to prevent mosquitoes from laying eggs near your home.

- **USE SCREENS**
  on windows and doors to keep mosquitoes out of your home.

- **USE CONDOMS**
  to reduce the risk of transmission through sex.
