Welcome to EarthWater

Our Mission

The world is suffering from an increase in diabetes and obesity. EarthWater’s mission is “To help change & improve people’s lives by offering 100% natural products that can put the much needed micronutrients - missing in our food group - back into the human body and help reduce the incidence of disease and illness”.

EarthWater Limited is a UK registered company founded in 2013. Its USA wholly owned subsidiaries are EarthWater Inc., FulHum Inc., ZenFul Inc., FulHum Global Inc., and EWB International Inc. EarthWater owns trademark and intellectual property rights on FulHum and ZenFul brands. The Company is registered as an “Amazon Exclusive” Partner. The Company has 15 SKUs sold in over 30 countries.

Business Description EarthWater is a health and wellness company with products based on the discovery of an 80-million-year-old mineral deposit which has some of the richest mineral sources on planet earth. The Company extracts this composition (from a secret location) and liquifies the concentrate to create its amazing products.

FulHum and ZenFul: These trace minerals are deficient in individuals' daily diets. EarthWater’s mission is to provide products that infuse valuable micronutrients into our bodies with our healthy, holistic, natural ingredients supported by “Fulvic and Humic compounds”.

Management: EarthWater’s Executive Leadership Team and its Advisory Board bring blue-chip brand experience and a track record of brand development, along with a proven track record of entrepreneurial business successes. In addition to building emerging brands, the executive team has built and led the development of beverage marketing companies, advertising & public relations firms and consulted in the success of major brands across the world.

Distribution: EarthWater’s partnership with Amazon Exclusives is by far the greatest landmark for EarthWater which has the potential to bridge the gap between EarthWater and its customers all around the globe. Amazon created “Amazon Exclusives” to participate with promising companies before their sales take off and provide its customers early access to new and stringently vetted products. For EarthWater, it means getting a special spotlight on Amazon’s site and exposure to its 300+ million existing customers.

Market Dynamics: EarthWater, with unique products and fresh brands such as FulHum and ZenFul, has captured a strong following and seeks to capitalize on the wave of enthusiasm across the world. The application of a well-developed marketing program backed by EarthWater’s growing list of Influencers and Amazon Exclusives will catapult the EarthWater brand and products to new heights.
SIMPLY THE
Best Products for You.

Our bodies need minerals. They are vital to every part of our body. EarthWater products are infused with Fulvic and Humic compounds that are not only FULL of trace minerals, but also pack a punch with antioxidants and electrolytes, not to mention a high alkalinity.

The best part about our products is that they are all natural. No sugar, chemicals, calories or GMO – it is Mother Nature’s gift to us, all we have to do is drink up!

Current farm and range soils throughout the world are cause for deep concern due to major and ongoing declines in their mineral values. - Conclusion of the 1992 official Rio Earth Summit from the United Nations: Mineral depletion of the soil is so bad in the US, that in 1997, you’d have to eat 26 apples to get the same amount of iron from an apple eaten in 1950. - Dr. August Dunning

HOW?

With Mother Nature’s own Fulvic and Humic compounds. They have been forming for over 80 million years, with an ongoing process of humification. Together, Humic and Fulvic Acid contain a large amount of minerals, including trace minerals. All of these work together to give your body the much needed nutrients missing in our foods due to overfarming.

Once you drink an EarthWater product, it starts to break down the Humic and Fulvic Acid, activating certain biological functions in the body such as disease prevention or symptoms as it starts working. You simply can’t get these minerals that are essential for your health anywhere else.

Our bodies are literally starved for these essential minerals packed into our products.

Fulvic Compound Benefits & Uses

1. Improves Gut Health and Immune Function
2. Helps Boost Digestion and Nutrient Absorption
3. Protects Cognitive Health
4. Improves Detoxification
5. Lowers Free Radical Damage and Inflammation
6. Improves Energy Levels and Lowers Pain
7. Repairs and Protects the Skin
8. Maintains Healthy Hair, Skin and Nails
Natural. Organic. Healthy. We try and stay healthy, do the right things, but we need to start with the most basic of all needs: water. Nature has a way of processing and refining minerals called the Fulvic Acid Phenomenon.

Organic fulvic acids are created by micro-organisms in the soil, for the purpose of transporting minerals and nutrients from the soil into a plant.

99 percent of Americans are deficient in minerals and trace elements according to a U.S. Senate study. Most of us today are suffering from certain dangerous diet deficiencies that cannot be remedied until the depleted soils, from which our foods come, are brought into proper mineral balance - or drink EarthWater!

The foods we eat, over-processed and devoid of many essential nutrients, are grown in soils that have been over-planted and saturated with synthetic fertilizers and pesticides. Many mineral supplements are not easily assimilated by the body.

Scientists theorize that mineral deficiency is the leading cause of many personal health issues. These personal health issues include, but are not limited to, diseases, aging, sickness and destruction of our physical well being. To the science of living cells, fulvic acids are vital in bringing substantial amounts of nutrients and minerals into water solution and delivering their living energies to the living cells.
In a lab test conducted on 28 October 2011 in the course of FDA registration (Reg. # 3006423386) of EarthWater patented Fulvic and Humic concentrate, it was certified that our sample contained 72 trace minerals indispensable for our human body. A few of these minerals and their respective quantities discovered under the laboratory report, are detailed in a table below:

**Trace Minerals Found in EarthWater**

"Almost all of the degenerative diseases - arthritis, osteoporosis, dental problems, hypertension, heart disease, cancer, bone spurs, kidney stones, muscular dystrophy, carpal tunnel syndrome, cataracts, Alzheimer's disease, and the list could go on - are either directly or indirectly related to mineral deficiencies. Our plants cannot manufacture minerals, our soils never had all 60 minerals in them, and soils that were enriched with minerals are now depleted from intensive farming."

- Dr. Joel Wallach
EarthWater products not only provide the essential minerals that the human body requires, but they also help our bodies maintain healthy pH levels due to the fact that our products have an average pH level of 8.8.

The largest study ever conducted on the reasons why people live to be 100 - called the Okinawa Centenarian Project - reveals that the longest lived people on earth drink alkaline water and eat alkaline foods. The people of Okinawa Japan regularly live to be 100 - and the water they drink has a pH of 10 - well within the alkaline range.

“The people of Okinawa, Japan regularly live to be 100 - and the water they drink has a pH of 10 - well within the alkaline range.”

Fulvic is compounded in extremely small amounts by the action of millions of beneficial microbes, working on decaying plant matter in a soil environment with adequate oxygen.

Fulvic acid has been discovered to be one of the most important natural miracles related to life itself. It is of low molecular weight and is biologically very active. Because of its low molecular weight, it has the necessity and ability to readily bond minerals and elements into their molecular structure causing them to dissolve and become mobilized Fulvic complexes.

Each molecule of Fulvic acid contains 14 carbon atoms, 12 hydrogen atoms and 8 oxygen atoms. While linked together, those atoms do not form a long chain. Instead, each molecule of Fulvic assumes the shape of a ring which causes it to have not only a strong aromatic quality, but also the high energy properties normally associated with healthy soil.

One of the most powerful natural free radical scavengers & antioxidants ever known, Fulvic acid also has the unique ability to weather and dissolve silica with which it comes into contact. Fulvic enhances the availability of nutrients and makes them more readily absorbable. It relieves oxygen deficiency and increases the vital activity of cells. It also changes the pattern of the metabolism of carbohydrates, resulting in an accumulation of soluble sugars.
WHAT IS FULHUM?

FulHum is a mineral infused beverage that is 100% natural. FulHum is a proprietary blend of organic registered fulvic and humic complex minerals.

WHY IS FULHUM BLACK?

FulHum is natural, without colorings, flavorings or preservatives. Humic minerals are black and they represent one of nature’s super nutrients.

- Healthy, Zero Calorie Mineral Water
- Natural Electrolytes
- Powerful Antioxidants
- Life Essential Trace Minerals
- No Colorings, or Preservatives
- Naturally occurring minerals
- Permeates walls delivering vital nutrients to parts of the body in need
- Neutralizes Free Radicals
Satisfy your thirst with fulvic minerals

ZenFul is enhanced with specially formulated Fulvic mineral complexes, a significant source of trace minerals. Natural plant and fruit extracts are infused for refreshing & calming flavor combinations. ZenFul is developed to help athletes rehydrate, refresh and recover after exercise.

See the difference ZenFul makes.

The benefits of fulvic and humic acid are not only great for humans, but for our furry counterparts as well. Some areas that are benefited by them are:

- Digestion
- Cellular Health
- Brain Health
- Diabetes
- Antioxidant
- Anti Inflammatory

EarthPets added to water, which makes up 80 percent of your dog’s body, dissolves natural and unnatural substances as well as serves as the root of all his biological processes, including circulation, digestion and waste removal.
EarthBody

Your body is made up of 70% water and keeping it well hydrated throughout the day will help it run at an optimum level.

Your skin has many important functions and one of the main functions is eliminating toxins, which it can’t possibly do if your skin isn’t hydrated.

When skin isn’t hydrated it becomes dry which is of particular concern if you suffer from acne, dermatitis or eczema and dry skin can make your condition worse! Neglecting such an important part of your skin health can also result in wrinkles and blemishes.

By using EarthBody and keeping your skin hydrated, you will notice that it is more plump and smooth with a radiant glow.
EarthWater Products are sold in up to 30 Countries around the world on Amazon.com/Exclusives. EarthWater also has an aggressive Affiliate Program as well as an Influencer Program.

**Amazon Affiliate**
EarthWater is pleased to announce its partnership with Amazon Business. Amazon Business is a new and innovative way to distribute EarthWater products to businesses throughout the world. Through Amazon Business, any company will be able to purchase our products and receive corporate discounts. All of our products will be discounted 30% to help your company meet its margins and will give you and your customers complete access to our product line!

**Amazon Business**
Accessing our business products is simple; all you have to do is create a free account for your business and you are immediately eligible for our corporate discounts. All you need is your company’s tax ID. After creating your business account, you will go to the Amazon Business page to find our discounted listings. Orders over $49 will include free two-day shipping!

These discounts are available and accessible twenty-four hours a day, seven days a week. You can also set up many options including, but not limited to: Multi-account users, approval workflows, Tax exemptions for qualifying organizations, and corporate purchasing cards.

To create your company’s Amazon Business account, get started by clicking here.

**EarthWater Ambassador Program**
Our Ambassadors are key players here. They are in charge of growing EarthWater in their city and abroad, with the flexibility of promoting on their own schedule. Our Ambassadors earn cash, perks, and more. Email us at ambassador@earthwater.com for more information.

Fulvic Minerals with active carbon and high molecular oxygen are one of the most powerful antioxidants and cleansers in the world.

They make nutrients in the food we consume, such as vitamins and minerals (and other herbal supplements), more readily available for use by our body’s cells.

- Boosting and helping to rebuild the immune system
- Neutralizing radiation and reducing its harmful effects on the body
- Removal of harmful toxins and free radicals from the body
- Improving memory, focus, and analysis
- Maintenance of appropriate nutrient levels in the body’s cells
- Reducing stress levels
- Maintaining healthy hair, skin and nails
- Enabling better hormone and electrolytic balances
- Improving circulation and lowering blood pressure
- Lowering levels of arthritis-related pain and inflammation
- Enabling more restful sleep
- Increasing energy & metabolism and leading to greater health & wellbeing
