

Maple ECSE Newsletter

Sept. 25- Sept. 29

Theme: Transportation

We had a lot of fun last week. We read and acted out Ten Apples Up on Top. We ate apples of many different colors and apple sauce. We drank apple cider. We watched videos of how apples grow. We also read about the different parts of an apple; the skin, the flesh, the seeds, the stem, and the core.

This week we will be continuing to work on lots of skills:

- Recognizing our first name and the first letters of our name
- Naming the colors and shapes
- Matching/naming the letter T/t
- Positional Words: Up, on, over
- Sharing with our new friends and learning to play with them
- I will be assessing general knowledge through play activities

Mrs. K & Mrs. Layden
kellerkk@hoopeton.k12.il.us

This week we will be looking at transportation and things that go. Boats, planes, trains, trucks, and cars. **On Friday, they may bring in their favorite vehicle but it has to be in their backpack on the bus.**

Don't forget to send in October milk money!

I will not have a first quarter mid-term.
