## Transition Management

## 7 CF DCF 5 H9 'DF C: =@'

WA Transition is a leading provider of independent transitional logistics services in the Western Australian Marketplace. Australian owned and operated, WA Transition works with liquidators, valuers, auctioneers, facility managers, property managers and building owners to evaluate, provide and deliver a turnkey solution to their physical asset needs.

Established in 2015, WA Transition have delivered on over 200 residential and commercial projects, ranging from residential house moves, to the packing and clearance of large warehouses. Our strong relocation and project management experience, coupled with our growing reputation and our local presence, ensure our commitment to delivering a high quality, independent and professional service.

Our expertise include Asset Relocation, Waste Removal, Asset Defit, Asset Auditing, Labour Hire and Subcontractor Management. Our combination of these services guarantees that the minimum expense is incurred for reaping the maximum realisation of assets on any project.

Our clients range from major property and real estate groups such as QUBE, Blackburne, Porteous International and SFR Property advisory, to valuers, law offices and mining companies, such as Thundelarra. We work closely with our clients to realise their objectives, achieve their goals and become their trusted transition contractor.

Our vision is to be the preferred transitional logistics provider across the construction, mining, manufacturing and civil industries.
