Public Service Announcement from The City of Havre regarding storm debris and branch disposal

Due to the overwhelming quantity of storm debris and downed branches after the severe storm last week, and in accordance with City Code 9-8-5, the City of Havre is calling for Havre residents to responsibly dispose of branches and debris from their properties. As your cleanup continues, please DO NOT place branches and debris on the streets, boulevards or in the alley ways.

There are two designated sights available for disposal. The City has a “Tree Dump” on the North Side out on Shepherd Road that will be open from 8:00 a.m. until 7 p.m. or until it gets dark. And at this time The Unified Disposal Landfill east of town is also open daily from 6 a.m. until 8 p.m. until further notice

Please also be advised that the City of Havre **does not have** any designated dump sites in town and people that are caught dumping in areas around town may be cited.

The City will continue to work on helping with cleanup as time and limited resources allow, but with the change of seasons we are also trying to prepare for the upcoming winter season.

The City of Havre appreciates your cooperation and willingness to help with the clean-up of our community after this major storm event.

If you have questions or need more direction please feel free to call 265-6719 or 265-4941
