

A PM SPIRITS PROJECT

THE STREET PUMAS'

Everyday drinking booze need no longer be a shell game, thanks to a new Apex Predator on the Liquor Market. **STREET PUMAS** bring **PM SPIRITS** quality to a cutting-edge line of **Well Spirits** with no compromise, just as you deserve. The **True Spirit**, unmeddled, unmanipulated, and ready to serve you at a moments notice in cocktails and calls.

THE LINEUP!

The water used in all The Street Pumas Line is reverse osmosis water made at the bottling site by Equipo Navazos.

LONDON DRY GIN:

Approachable and classic style, this gin is based on a neutral grain spirits born in Piedmont, Italy. The fresh spirit is sent to Belgium, where it's married with botanicals: juniper berries, coriander, angelica, lemon peel, sweet & bitter orange peels - personally selected by Equipo Navazos and re-distilled to their specifications. The full proof gin then travels to Jerez, where it's brought to 40% ABV for bottling.

BLENDED SCOTCH WHISKY:

Distilled in Scotland, with a mashbill of 60% Grain and 40% Malt, this Blended Scotch Whisky is aged for 3 Years. After resting in barrel, it's imported to Jerez at cask strength and brought to proof for bottling. This selection is released with no additives; no caramel, no artificial flavors, sugars, or colors.

WHITE RUM:

A dynamic white rum distilled from molasses in Panama at a site that shares lineage with the iconic distilleries of Nicaragua. This bright, floral, molasses-forward Panama rum, is imported to Jerez at full strength, where it is gently reduced to 42% ABV for bottling.

VODKA:

This is a classic potato-based neutral spirit obtained at full strength. The spirit is imported to Jerez, where it's proofed down to 40% ABV. Distilled in Poland, brought to proof in Jerez, Spain - simply a clean, go-to Potato Vodka.
