

Cognac Hommage

a Yves & Jean-Noel Pelletan

We think this is the best Cognac we have ever worked with. We know, we know – of course we think it's good, it's our product. But we're serious...this Cognac is the epitome of everything PM Spirits is about.

Comprised of eaux de vie from one single cask plus a few assorted demijohns acquired by Nicolas over the years, these are the remains of the original plan for PM Spirits – an independent bottler of rare Cognacs. It was a romantic idea full of travels between France and the US, sourcing incredible Cognac, and bottling small lots by hand. It wasn't practical, however, and PM Spirits eventually evolved into what it is today.

*A blend of Cognacs distilled between 1925 and 1965
Bottled in July 2020 • Cask Strength • 43.8% ABV
870 Bottles • No Additives • No Filtration*

Yves Pelletan started to work full time as a cooper at age 14, learned the ropes of this demanding job and perfected his skills until he felt he was ready to open his own shop in the heart of Grande Champagne in 1973. His son, Jean-Noel, joined the family business in 2002. The work of this father and son team quickly became extremely sought-after in the Cognac region and beyond as they took the art of cooperage to the next level, prioritizing extreme quality over quantity.

We have bottled this as an homage to Yves and Jean-Noel Pelletan, two of only a handful of people to hold the title of Maitres Artisans Tonneliers, the apex of the cooperage profession. Yves and Jean-Noel have been instrumental to my understanding of Cognac and in making the liquid in this bottle taste as awesome as it does.
