*Thank you: Niels for your visionary talent and stellar production skills. John for advising me at every step, with heart. Carly and Kara, for your creative expertise and endless encouragement. ccMixer artists for generously contributing your sonic art to this record. And thank you all for listening! Each song on New Earth reflects part of my journey - of reconnecting to the underlying energy in all living things. I've discovered an array of emotion - from painful realities to undying hope. May the beauty of possibility lift us, for each present moment on this improbable, ideal planet Earth is a gift.*

*Earth is Burning*  
By Madam Snowflake

Been frozen by fear, feel the end drawing near  
There's a torrent of tears filling my eyes  
'Cause I'm caught in the wake of our collective mistakes  
There's a daily heartbreak that opens me wide  
There's a question up above from the Source some call Love  
Can you hear this voice resounding deep inside, it says  
What did you do when the earth was burning  
What did you do when earth was burning  
Earth was burning, what did you do  
Did you give up hate, open your fist now for a handshake  
Wear your suffering with grace before you die  
And exchange some convenience, it's such a simple thing  
For the forests' good green abundance  
And all the world's ocean brilliance, it's not so hard to try  
What will you do when the earth is burning  
What will you do when earth is burning  
Make a sacrifice for another life  
Won't you tell me what will you do  
Take one step today before it's too late  
Take one step today, no, we just can't wait  
'Cause one step and one step lead to another  
Together and that's all it takes  
What will you do 'cause the earth is burning  
What will you do the earth is burning  
Make a sacrifice for another life, won't you tell me, tell me  
What will you do 'cause the earth is burning  
What will you do our earth is burning  
Your small sacrifice saves another life  
Earth is burning what will you do, what will you do  
Take one step, start with one step, just take one step  
Start with one step, let's take one step together  
One step together, one step together, all together now  
Step together, one step together, step together, all together now

*Amplify the Light*  
By Madam Snowflake

What will I amplify this time  
Transform a world gone wrong to something right  
Feed what I hope for deep inside  
What will I amplify this time, unspoken hunger in my mind  
Heat from a candle glowing bright  
One flame still burning in this dark night  
That is what I'll amplify, that is what I amplify  
Fight for the light, I fight  
Light is what I'll amplify, light is what I'll amplify  
Light is what I amplify tonight  
Drowning or raging in the fire  
Nowhere to run from our collective mire  
Let's walk to ground that takes us higher  
Amplify the truth, not the liar and  
Fight for the light, I fight  
Light is what I'll amplify, light is what I'll amplify  
Light is what I amplify tonight  
No, no, no anger to incite, no, no, no power to ignite  
No more degradation, can't take no more dysfunction  
No, no, no I have to shield eyes  
No, no, no more bitterness and fright, no more fear  
Walling off the hearts of all mankind, open your heart  
No, no more corruption, not meant for this malfunction  
No, no, no I won't give up, I won't give up, I won't give up this  
Fight for the light, I fight, for the light, for the light  
We fight for the light, I fight  
Light is what I'll amplify, light is what I'll amplify  
Light is what I amplify tonight  
Amplify the light, amplify the light, amplify the light  
Light is what I amplify, light is what I amplify, light is what I amplify tonight  
Light is what I amplify, light is what I amplify, light is what I amplify tonight  
Light is what I amplify, light is what I amplify, light is what I amplify

## ***New Earth***

*By Madam Snowflake*

Here we go

Take my escape route, dark night ending now  
Memory seems wiped clean for one Love only

New Earth, New Earth

Blessed amnesia, present euphoria  
Heart, mind now directing ego, let go

New Earth, New Earth

Quantum mind machine forming reality

All I's get behind my third eye opening

Opening, opening, let go, here we go

Quantum mind machine forming reality

All I's get behind my third eye is opening

Find our way out, no hiding underground

A cure in here and now, regenerate somehow

Opening, new Earth, opening, new Earth, opening

New (let go) Earth, opening, new (let go) Earth

## ***Say Goodbye***

*By Madam Snowflake*

I could take you for a zombie

See the whites of your eyes, this wave is a tsunami

And I'm finding it hard to show you any pity

You're staring at the screen oblivious and lazy

You're gonna take it all, you're gonna take it all

I gave it up for you, I didn't want to

The dream of me and you is dying

Our green and blue is dying, oh we're through

I gave it up for you, I didn't want to

Our green and blue is dying

It's dying, we're dying me and you

I could make a proposition

You could change, but you're consumed with your addiction

I'm finding it hard to show you any pity

As you throw it all away, obliviously crazy

You're gonna take it all, you're gonna take it all, oh no

I gave it up for you, I didn't want to

The dream of me and you is dying

Our green and blue is dying oh we're through

I gave it up for you I didn't want to

Our green and blue is dying, it's dying, we're dying me and you

So say goodbye, so say goodbye

Will I escape, I don't know, to outer space, I can only hope so

I gotta go, I gotta go

Will I escape, I don't know, to outer space

You're gonna take it all, you're gonna take it all, oh no

I gave it up for you I didn't want to

The dream of me and you is dying, our green and blue is dying

Oh we're through

I gave it up for you, I didn't want to

Our green and blue is dying, it's dying, we're dying me and you

So say goodbye, so say goodbye

And I can hardly breathe, so say goodbye

No end that I can see, so say goodbye

No curing your disease, so say goodbye

No choice, I gotta leave, don't wanna say goodbye, goodbye

Gotta say goodbye, goodbye, goodbye

Standing here facing our extinction

You're pushing much quicker to completion

Money won't matter when you're gone

Power won't matter when you're gone

Money won't matter when you're gone, goodbye

Money won't matter when you're gone, goodbye

Goodbye

***Breathe***

*By Madam Snowflake*

Breathe, breathe in  
Breathe, breathe out  
Travel light  
Through this dark night  
There's only now

Breathe in oxygen  
Trees give before they are fallen  
Life comes back again  
Until then

Travel light  
Through this dark night  
There's only now

Breathe in oxygen  
Before the world has fallen  
Before we all have fallen  
Fallen, fallen  
We've fallen down  
Fallen down

Until then  
Travel light  
Through this dark night  
There's only now  
Only now

We've fallen, we've fallen

***Unbury Your Heart***

*By Madam Snowflake*

I've tried to warn you, with logic impart  
Basic science and truth says we are breaking apart  
Our balance has toppled, once state of the art  
Now we spread like a virus and very soon we all will depart  
Unbury your heart, baby

Just unbury your heart, hurry dear, and  
Unbury your heart, I can feel this in my heart  
Factors irrefutable painfully show we've gone off the charts  
All simply computable so how are you still in the dark  
Unbury your heart, baby

Just unbury your heart, hurry dear, and  
Unbury your heart, I can feel this in my heart  
I've tried to warn you, I've tried to warn you  
I've tried to warn you, but you can't hear me  
I've tried to warn you, I've tried to warn you  
I've tried to warn you, but you can't hear me  
I've tried to warn you, I've tried to warn you  
I've tried to warn you, but you won't hear me  
Unbury your heart, baby

Just unbury your heart hurry dear and  
Unbury your heart, I can feel this in my heart  
I can feel this in my heart, can't you feel it in your heart  
So why are you still in the dark  
Oh, unbury, unbury your heart

Can't you feel it in your heart, awake from the dark  
Unbury your heart, unbury your heart  
I can feel this in my heart

Can't you feel this in your heart, awake from the dark  
Unbury your heart, unbury your heart  
I can feel this, I can feel this, I can feel this  
Burning in my heart

## **Running**

*By Madam Snowflake*

One step forward two steps back  
Evolving the whole is an arduous task  
But keep running, keep running  
Running just to keep from falling back  
Running just to keep from falling back  
Running just to keep from falling back  
Pinging my pocket, blue light distraction  
Running just to keep from falling back  
Bouncing focus, mind just one track  
Mind just one track, mind just one track  
Expand attention  
Digging underground planting seeds of intention  
Expand attention  
Energy climbing to conscious ascension  
Running just to keep from falling back  
Running just to keep from falling  
Running just to keep from falling back  
Vibrating color, my brothers see just white or black  
Running, but we keep on falling back  
Tied to each other, a soul based contract  
Expand attention  
Digging underground planting seeds of intention  
Expand attention  
Energy climbing to conscious ascension  
Is there no other way, is there no other way  
Is there no other way  
Expand attention  
Digging underground planting seeds of intention  
Expand attention  
Energy climbing to conscious ascension  
Expand attention  
Digging underground planting seeds of intention  
Expand attention  
Energy rising, rising to conscious ascension  
To conscious ascension, ascension, ascension  
Running just to keep from falling back

## **Climb**

*By Madam Snowflake*

I'm dysfunctional baby, and so are you  
Clearly dysfunctional baby  
There's nothing to do but  
Awaken, awaken  
Soul smothered by mental illness  
Ego entertained by screen violence  
So obviously flawed in our history books  
What can we do?  
Yea, I'm dysfunctional baby, and  
You're dysfunctional baby  
We're all dysfunctional baby  
There's nothing to do but  
Awaken, out of the madness  
Awaken, light in the darkness  
Awaken, out of the madness, awaken  
Climb out, climb out, climb out, climb out  
Climb out, climb, climb  
Climb out, climb  
Call to arms, race extermination  
How can we call ourselves human  
Witnessing species mutation  
There's nothing to do but  
Awaken, awaken,  
Oh awaken, oh awaken  
Awaken, out of the madness  
Awaken, light in the darkness  
Awaken, out of the madness, Awaken  
Climb out of this well of insanity, climb  
Climb out of this well of insanity  
Pull me out of this cell of insanity  
Climb out, climb out, climb out, climb!

## *Fever*

*By Madam Snowflake*

Ice shelves flow like rivers  
Currents stop, confused  
Humans sweat and shiver  
Their Mother has been abused  
Oh, oh, been abused, oh, oh, she is abused  
Seaboard caught by winter  
From currents all confused  
While deserts beg for water  
The woodlands are misused  
Oh, oh, misused  
Fever, feel the fever  
There's a fever taking hold  
Fever, feel the fever  
There's a fever, won't let go  
Hope, carry us home  
Hope, carry us home  
Hope, carry us home  
Hope, carry us, carry us, carry us home  
Fever, feel the fever  
There's a fever taking hold  
Fever, feel the fever  
There's a fever, won't let go, won't let go  
Fever, feel the fever  
There's a fever taking hold  
Fever, feel the fever  
There's a fever, won't let go, won't let go  
Won't let go, won't let go, won't let go  
Hope, carry us home  
Hope, carry us home  
Hope, carry us home

## *Foolish Game*

*By Madam Snowflake*

Life's a foolish game, do you ever feel the same  
Well, maybe we could change and  
Turn this ship the other way  
Feel it in the darkness  
We're sailing right into those jagged cliffs, yeah  
Some say we've always been insane  
Hey, life's a foolish game  
A simple equation for an enclosed system  
Natural world gone missin'  
Plus all our CO2 emissions  
Equals degradation  
Waste and shifts and mass extinctions, oh no  
But, maybe we can change, we sure can't stay the same  
'Cause life's a foolish, foolish game  
Possible solution, rewire our connection  
Maybe less consumption  
Emerging from a mind of isolation  
Revalue all that we've been given  
God don't work on commission  
We make up one big breathin' chain  
We're the quite the same  
Hey, life's a foolish, foolish game  
Life's a foolish game, do you ever feel the same  
Well, maybe we could change and  
Turn this ship another way  
Take less than we've been given  
If we move in that direction, yeah  
We'll find our place in this living chain  
We're the quite the same  
Yeah, life's a foolish, foolish game  
Life's a foolish game, hey, life's a foolish game  
Life's a foolish game, yeah, life's a foolish, foolish game  
Life's a foolish game, a foolish, foolish game  
Life's a foolish game, hey, life's a foolish game  
Life's a foolish game

*Escape Pod*  
By Madam Snowflake

Floating in indecision, hoping I'm wrong  
Witness to degradation  
As the ants go marching on, they march on  
Marching on  
Sinister anger around me  
Tunnel vision and we're undone  
We're undone, yeah, we're done  
Now is my escape pod, Now is my escape  
Oh, the Now is my escape pod, in Now, I escape  
A matrix of pale imitation, you fools  
Geology is what's real  
And this moment is real, forget what you feel  
Yeah, this moment is real, what is real  
Now is my escape pod, Now is my escape  
Oh, the Now is my escape pod, in Now, I escape  
I escape  
And there's nowhere that's safe  
Yeah, there's no hiding place  
So there's no other way, than to Be Here Now  
There's nowhere that's safe  
Yeah, there's no hiding place  
So there's no other way, than to Be Here Now  
There's nowhere that's safe  
Yeah, there's no hiding place  
So there's no other way, than to Be Here Now  
Be Here Now  
Now is my escape pod, Now is my escape  
Oh, the Now is my escape pod, in Now, I escape  
I escape  
And now I'm hiding from the world  
Now I'm hiding from the world  
I'm in this world, but not of it  
I'm in this world, but not of it  
In this Now, in this Now  
Now, Now

*Make A Change*  
By Madam Snowflake

I want to change, and give the world more than I take  
I want to change, yes I do,  
And make amends for my mistakes  
This apathy won't get the best of me, I've got to change  
When I was young, Daddy taught me Earth is Eden  
When I was young, way back then, so much beauty to believe in  
Now lakes are low, rivers ain't flowing so  
We've got to change, oh my brothers, let's make a change  
Change for our children, yeah, we could save them and  
Change for Creation, this is our evolution  
Let's make a change, oh my sisters, let's make a change  
There's a big, big hole fueling this way we're used to living  
And hole after hole, oh no, no  
Where nothing lives now from all our digging  
But out of sight, out of our hearts and minds  
That's got to change, oh my brothers, let's make a change  
Change for our future, oh, see the big picture and  
Change for each other, we're in this lifeboat all together  
Let's make a change, oh my sisters, let's make a change  
Change for our future, oh, see the big picture and  
Change for each other, we're in this lifeboat all together  
Let's make a change, oh my sisters, let's make a change  
Water is Soul, hear it crying from the ocean  
We're made of Soul, so we're told, every child in every nation  
With open eyes can't help but realize, we've got to change  
Oh my brothers, we've got to change, oh my sisters  
Let's make a change, we can't stay the same  
There's no easy way, Lord help us change  
Let's make a change, we can't stay the same  
There's no easy way, Lord help us change  
Be the change, be the change, be the change, be the change  
Be the change, be the change, be the change, be the change
