Open Strings

Goats Can Eat Anything

Like the first 4 strings of a guitar with a capo at fret V

Tuning the ukulele to itself

If you don't have an electronic tuner, you can fret the uke strings to tune it to itself as above – fret 4th string at fret V and play the C and compare likewise for 3rd to 2nd and 2nd to 1st string

Most often, the ukulele string is flat. To tune higher, turn the tuning peg counter-clockwise

THIS IS FOR EDUCATIONAL USE ONLY - NOT FOR SALE
Picking - Open strings

Remember the notes of the open strings.................................G C E A

Play each one individually by pushing down and away from yourself with your left thumb until it slips off the string and you hear the note.

Then, mute (quiet) the note by putting your thumb on that string, or mute all of the strings by placing right hand lightly on the strings (rest position).

Play each string and tap your foot four times before bring your thumb back to the string - play each string 4 times, then move to the next string - begin at the 4th

A- ----------------------------------------------- A A A A rest ------------------------------------------ 1
E- ----------------------------------------------- E E E E-rest ------------------------------------------ 2
C- ----------------------------------------------- C C C C-rest ------------------------------------------ 3

Let’s play along as we sing a familiar tune –
Play the open 3rd string for G and the 4th string for D
Play once for each word in Row, Row...

Row, Row, Row Your Boat First note = G - open 3rd string
G
Row, row, row your boat, gently down the stream
D G
Merrily, merrily, merrily, merrily, life is but a dream!

Swing Low, Sweet Chariot First note = sing B - open 2nd string
G D
Swing low, sweet chariot, comin’ for to carry me home
G D C
Swing low, sweet chariot, comin’ for to carry me home
The C Scale

We will often play in the key of C major. C is the "root" note, we begin there. This key, C uses a scale consisting of the notes C D E F G A B C

You have probably seen the major scale on a piano as the white keys. Note the black keys, called sharps or flats – when ascending or descending These are not played in this scale, but can be counted long with the white key notes

Start at C... C C# D – 2 steps then start with D D# E – 2 steps then E F - 1 step... F F# G– 2 steps, G G# A – 2 steps, A A# B – 2 steps, B C - 1 step...

This will work for any major scale

Play the scale using only the third string - C string -frets 0, 2, 4, 5, 7, 9, 11,and 12
Starting at the first fret, go up 2 frets, play. Then, go up 2 more, then 1, 2, 2, 2, 1

You could also find these notes near the nut and play it there to avoid moving your left hand up the neck and keep things compact.

Begin at C on the open 3rd string, up 2, then move to the open 2nd string for E, then up 1 to the F, up to to G. then play the open first string for A, up 2 for B and lastly up 1 for C. The intervals are exactly the same, we are just using the open strings because they will work for this C scale.

One excellent way to improve is to learn this scale and play it every day until you don’t have to look at your left hand. Then some day you will be able to play it without thinking about the notes. Many jazz musicians warm up by playing scales.
**Introduction to Chords**

A chord is a group of notes played at the same time - play strings 4,3 and 2 GCE=C

Remember the C scale with the notes

\[ \text{C D E F G A B C} \]

We could assign numbers to each note relative to C

\[ \begin{array}{cccccccc}
    1 & 2 & 3 & 4 & 5 & 6 & 7 & 1 \\
    \text{C} & \text{E} & \text{G} & \text{C} \\
\end{array} \]

If we start at C and choose every other note, we get a **C major chord**, C E G - 1,3,5

Play one, skip one, play one , skip one - begins again at 1

For the ukulele, we have 4 strings, so you could play are 2 C's in the C chord GCEC

These are in a different order and will have a different sound than CEG

Let's look at your first chord - **C**. Place your right ring finger behind the third fret of the first string as illustrated below - this changes the 1st string A to C for CECG.

Remember the C scale

![Open strings and C chord diagram]

---

**Your next chord - C7**

![C and C7 chord diagrams]

When you lower the pitch of the first string to Bb, fretting it at the first fret rather than the 3rd , and add this note to the C chord ECG, it is called a **C7 chord BbECG**.

Strumming - left hand - two methods:
1. Hold hand palm towards chest - point index finger at yourself
   Strum with index fingernail down
2. Strum with thumb only - best for down only, softer effect
   - Strum comes from wrist - keep it loose and easy
   - like shaking water off your hand

C Chord - Ring finger right hand 3rd fret first string

Strum Patterns: D=down   U=up       Count 1,2,3,4, 1,2,3,4

Chord Practice - C to F

Use 1 finger on your left hand for each fret

C  E  C  G

C to F Walk down first string - 3rd finger C, 2nd Cmaj7, 1st C7. Then roll your index finger over to second string and stretch your long finger to the fourth string second fret for F. Practice C to F and F to C.

C x8 strums, Cmaj7 x8 , C7 x8 - F x8 , then 4 strums each, then 2 then 1

Do Wah Diddy

Key of C

First note=G

There she was just a-walkin' down the street, singin' "Do wah diddy diddy dum diddy do"

snappin' her fingers and shufflin' her feet, singin' "Do wah diddy diddy dum diddy do"

Melody TAB

The 4 horizontal lines above represent the 4 strings as if the ukulele were laid before you on a table. G C E A fourth string to first string. The numbers show the position that you fret the string. In this example, fret the 3rd fret of the second string for G, play it 5 times, then 1st string open for A. The vertical lines represent bars between measures – a way of organizing the music. This format is called tablature or TAB for short.

YOU ARE MY SUNSHINE
C G7 C

C
The other night dear as I lay sleeping,
F C
I dreamed I held you in my arms
C
But when I awoke dear, I was mistaken
G7 C
And I hung my head and I cried.

Chorus
C
You are my sunshine, my only sunshine.
F C
You make me happy, when skies are grey.
F C
You'll never know dear, how much I love you
G7 C
Please don't take my sunshine a-way.

C
I'll always love you and make you happy
F C
If you will only say the same.
F C
But if you leave me and love another
G7 C
You'll regret it all someday.

Chorus
C
You told me once dear you really love me,
F C
And noone else could come between.
F C
But if you leave me to love another,
G7 C
You would shatter all of my dreams.

Chorus
C
But if you stay dear, I'll always love you
F C
And then you'll love me one the same
F C
We'll have each other and be so happy,
G7 C
Our love will burn a brighter flame

Octopus's Garden
Ringo Starr

Key of C  First Note=G

[C] I'd like to be [Am] under the sea
In [F] an octopus' garden in the [G7] shade
[C] He'd let us in, [Am] knows where we've been
In [F] his octopus' garden in the [G7] shade.

[Am] I'd ask my friends to come and see
[F] An octopus' [G7] garden with me
[C] I'd like to be [Am] under the sea

[C] We would be warm [Am] below the storm
[F] In our little hideaway beneath the [G7] waves
[C] Resting our head [Am] on the sea bed
In [F] an octopus' garden near a [G7] cave

[Am] We would sing and dance around
[F] Because we know we [G7] can't be found
[C] I'd like to be [Am] under the sea
In [F] an octopus' [G7] garden in the [C] shade

[C] We would shout [Am] and swim about
[F] The coral that lies beneath the [G7] waves
[C] Oh what joy for [Am] every girl and boy
[F] Knowing they're happy and they're [G7] safe

[Am] We'd be so happy you and me
[F] No one there to tell us what to [G7] do
[C] I'd like to be [Am] under the sea
In [F] an octopus' [G7] garden with (C)you.

In [F] an octopus' [G7] garden with [C] you [F] [C]
The Bird Song - Victoria Vox

I'm gonna sing, sing like a bird
A bird in the sky, the sky so high
And I'm gonna send, send you a song
A song from my heart, my heart full of love

When you look in the mirror, tell me what do you see?
Do you see me in your eyes?
Although I can't be there every day
You can hear me if you try

Solo

I'm gonna sing, sing like a bird
A bird in the sky, the sky so high
And I'm gonna send, send you a song
A song from my heart, my heart full of love
A song from my heart, my heart full of love
A song from my heart, my heart full of love
A song from my heart, my heart full of love

What Key are we in? Always try to determine before playing the song

Why would you want to take the time to sort this out? To this point, we have almost exclusively played in the key of C. This key uses chord shapes at the nut that are relatively easy to form. What if you found your vocal range could not sing all of the notes in the melody? One could remain mute, or change the key (transpose) to one that is manageable.

The key determines the scale and a group of chords that work well together. The key is also the root note. You can use the scale to determine the chords used in the key. You already know how to determine the scale (221-2221). Let’s look at the chords in the key of C major. Write the scale. Then, to number chords, start from the root C and count –using roman numerals for chords (2, 3 and 6 are minor chords and usually denoted as lower case.7 is a diminished chord.

So... C=I, D=ii, E=iii, F=IV, G=V, A=vi, B=VIII0. You can use your fingers to count the I, IV and V.

Let’s look at a chart with the chords from the C scale. You will see some of these in more complex songs.

<table>
<thead>
<tr>
<th>Key</th>
<th>I</th>
<th>ii</th>
<th>iii</th>
<th>IV</th>
<th>V</th>
<th>vi</th>
<th>VII0</th>
<th>#/b's</th>
</tr>
</thead>
<tbody>
<tr>
<td>C</td>
<td>C</td>
<td>Dm</td>
<td>Em</td>
<td>F</td>
<td>G</td>
<td>Am</td>
<td>Bdim</td>
<td>None</td>
</tr>
</tbody>
</table>

If you look at the songs we’ve played, mostly, we’ve used the I, IV and V chords – C, F and G – each has its own character – I is the home chord, IV is the away chord and V is the tension chord that wants to resolve back to the home. We’ve also used the minor chords, vi and ii, and we are ready to get to the iii. Minor chords tend to have a wistful or sad character.

**How to tell the key of a song - for major keys**

The key is often the chord that the song ends with and sometimes begins. Or, find the major chords and look for the one farthest separated from the others. You can read the key if you are reading music from a staff- C has no sharps or flats, - F has Bb , G has F#, - A mnemonic - F = 1 Flat For sharps, GDA=1,2,3 sharps (Green Dopey Alligator)

If you work out the scale for each using 221-2221, you’d find the sharps and flats.

Try to find the key of every song as you begin to look it over. Then look for any unexpected chords. Also, the structure of the song – is there a chorus? Sung many times or once at beginning? Is there a bridge? Look over the piece first, and you’ll learn more and understand what to do when you get there.
Three new minor chords - **D minor G minor** an easy B7

**Dm** easy from F - just put your ring finger on the third string second fret

F x4, Dm x4, F x4, Dm x4 F x2, Dm x2, F x1, Dm x1

**Gm** from Dm, move ring finger to third fret of second string, then slide long finger over to third string second fret, then put index finger on first string first fret **Play Gm x4, Dm x4, repeat then Gm x2, Dm x2**

**Em** Place your ring finger (#3) on the fourth fret of the third string, then put your long finger on the second string, third fret and then your index finger on the first string second fret. Remember, you can play a F#7 just by moving this shape toward you. These 2 chords are often paired in songs like the bridge in Elvis’s Can’t Help Falling in Love with You

Minor chords have a flatted 3rd

So for a C m chord, let’s look to the C scale **C D E F G A B C**

Assign numbers relative to C **1 2 3 4 5 6 7 1**

C chord is **C E G**

C minor chord has flat 3rd – Eb **C Eb G**

Now, challenge yourself to sort out the notes of an Dm chord

D scale is D E F# G A B C# D – using 221-2221 to select scale notes

D chord **D F# A** 1 3 5

Dm **D F A** 1 b3 5

How are we playing the Dm? (E A C E) – Don’t worry, be happy
Don’t Worry, Be Happy

Intro: 2 measures of each [C] [Dm] [F] [C] Till Ready [D DU UDU UDU UDU UDU] Key of C First note = E

[C] Here’s a little song I wrote, [Dm] you might want to sing it note for note,
Don’t [F] worry, Be [C] happy

[C] In every life we have some trouble,
[Dm] when you worry you make it double,
Don’t [F] worry, Be [C] happy / / /

Chord Practice - New Chords - A D E7

A is similar to Am, but with your index finger added on the third string, first fret. A7 has the E down 2 steps to D, so remove the long finger.

To play D, rotate your wrist to the right and move your long finger over to the third string, second fret and put your index on fourth string second fret and ring on second string second fret. Play A7 by not fretting the 3rd string.

Then to play E7, move your index finger back to the fourth string, first fret and your ring finger over to the first string second fret.

Play A, D, E7 These chords work well together and are particularly useful for playing blues songs. Try plucking each string to make sure you are playing clean.

Perhaps try some new strums like down/down/up/up/down A x8, D x8, E7 x8. A x4, D x4, E7 x4. A, D and E7 then play

AAAA A7A7A7A7 DDDD D7D7D7D7 E7E7E7E7 DDDD

7th chords made by adding a flatted 7th with the 1 3 5 triad
For instance, the scale is A B C# D E F# G# A
So A7 includes 1 3 5 b7 A C# E and G (the flatted 7th)
HOW LONG BLUES

BY LEROY CARR

Key of A First note=A

A       A7
How long, baby how long,

D       D7
Has that evening train been gone?

A   E7   A
How long, how how long, baby how long?

Went to the [A] station, didn't see no [A7] train.
Down in my [D] heart, I have an aching [D7] pain.

I feel dis[A]gusted, I feel so [A7] bad
Thinking 'bout the [D] good time that I once had [D7] had.

I could see the [A] green grass growing on the [A7] hill;
I ain't seen no [D] greenback on a dollar [D7] bill.

You're gonna be [A] sorry you'll feel so [A7] blue.
When you want [D] me, baby, I declare I want, want [D7] you.

Solo on Verse – start on E

Don't have no [A] money for to ride the [A7] train.
I would ride the [D] rails, baby, to be with you a[D7]gain.

Must I [D] keep my, my watching [D7] point?
KEY TO THE HIGHWAY  

I got the key to the highway
Billed out and bound to go
I'm gonna leave here running
Walking is most too slow

I'm going back to the border,
Where I'm better known
You know you haven't don't nothing,
But drove a good man away from home

When the moon peeps over the mountain
I'll be on my way.
I'm gonna roam this old highway
Until the break of day

So give me one, one more kiss mama

Just before I go.
Cause when I leave this time,
I won't be coming back no more.

INTRO
A D A D A D A D Key of D First note= F#

Goodbye Joe, me gotta go, me oh my oh
Me gotta go pole the pirogue down the bayou
My Yvonne, the sweetest one, me oh my oh
Son of a gun, we'll have good fun on the bayou

CHORUS:
Jambalaya, a-crawfish pie and-a fillet gumbo
'Cause tonight I'm gonna see my cher a mio
Pick guitar, fill fruit jar and be gay-oh
Son of a gun, we'll have big fun on the bayou.

Solo - verse
Thiba-deaux, Fountaineaux, the place is buzzin'
Kinfolk come to see Yvonne by the dozen
Dress in style, go hog wild, me oh my oh
Son of a gun, we'll have big fun on the bayou.

Congratulations! You have arrived – at the crossroads – you now need to choose whether you will languish in a state of uke Bb ignorance, or take on a challenge – the Bb chord – believe me, it’s worth it. This will enable you to play in the key of F – many uke songs are in F – and this is the first step towards moving up the neck.

The key to getting this chord is the pinch on the first 2 strings with your index finger – you may need to move your thumb more to the back of the neck. Once you have it, play these 2 strings to see if the sound is clear. Adjust until it is. Then, just place your long finger on the third string second fret and ring finger on the fourth string third fret. Again, play each string individually to seek out a plunker. If it’s a bit off, play it that way for now, but practice getting this chord to ring clear. Move it up a fret to play F# - pretty easy? You could play it at the 5\textsuperscript{th} fret for A.

This is the great thing about moveable chords – we will learn others too.

For now, let’s learn a chord progression in key of F - F Bb C – and a new way to play C – at the III fret – slide the Bb up to the III fret

Play 8 strums on each chord, then 4 strums per chord
I'LL BE YOUR BABY TONIGHT

F
Close your eyes, close the door,
G
You don't have to worry any more.
Bb C F
I'll be your baby tonight.

F
Shut the light, shut the shade,
G
You don't have to be afraid.
Bb C F
I'll be your baby tonight.

Bb
Well, that mockingbird's gonna sail away,
F
We're gonna forget it.
G
That big, fat moon is gonna shine like a spoon,
C
But we're gonna let it,
[no chord]
You won't regret it.

F
Kick your shoes off, do not fear,
G
Bring that bottle over here.
Bb C F
I'll be your baby tonight.

SITTIN' IN LIMBO        CLIFF/BRIGHT

Reggae strum       Key of G       First note=G

G
Sitting here in limbo, but I know it won't be long.
C                                                                      G
Sitting here in limbo, like a bird without a song.
D
Well they're putting up resistance,
C                    D                          G
But I know that my faith will lead me on.

G
Sitting here in limbo, waiting for the dice to roll.
C                                                                      G
Sitting here in limbo, got some time to search my soul.
D
Well they're putting up resistance
C                    D                          G
But I know that my faith will lead me on.

C                                                                      G
I don't know where life will lead me,
C                                                                      G
But I know where I've been.

C                                                                      G
I can't say what life will show me,
C                                                                      G
But I know what I've seen.

B7                             Em
Tried my hand at love and friendship,
B7                             Em
But all that is passed and gone.
A                                      D
This little boy is moving on.

G
Sitting here in limbo waiting for the tide to flow.
C                                                                      G
Sitting here in limbo knowing that I have to go.
D
Well they're putting up resistance,
C                    D                          G
But I know that my faith will lead me on.
G

America the Beautiful
Katherine Lee Bates / Samuel A. Ward
Key of G  1st note=D  Scale = G-A-BC-D-E F#G

G                 D7
O beautiful for spacious skies,
                   G      D7
For amber waves of grain,
                   G      D
For purple mountain majesties
                     E7    A    A7
Above the fruited plain!

Chorus:
                   G       D7
America! America!
                   G       G7
God shed His grace on thee,
                     C       G
And crown thy good with brotherhood
                     C   D7    G
From sea to shining sea!

G                 D7
O beautiful for patriot dream
                   G      D7
That sees beyond the years
                   G      D
Thine alabaster cities gleam
                     E7    A    A7
Undimmed by human tears.

G                 D7
America! America!
                   G       G7
God shed His grace on thee,
                     C       G
And crown thy good with brotherhood
                     C   D7    G

We have played songs in the keys of C, A, F and G. I play America the Beautiful in G because it fits my vocal range, meaning I can sing those notes. If you wanted to play it in C, because the chords were more manageable or your vocal range were different, you could identify each chord as its number and substitute a different key’s corresponding chords. Again, once you have found the key, (I chord), sort out what the IV and V chords (use fingers if necessary) so you will know what will fit. Find some uke tab to songs you like and find the key, then the I, IV and V.
