

Table Examples

The table caption should be above or below the table, not in the table framework.

Table 1: Data Set			
Date	Result 1	Result 2	Result 3

These two tables would be best as four tables or reorganized into simple tables.

Date 1	Result 1	Property 1	Date 2	Result 1	Property 1
June 1			August 1		
June 10			August 10		
July 1			September 1		
July 10			September 10		
Date 3	Result 1	Property 1	Date 4	Result 1	Property 1
June 1			August 1		
June 10			August 10		
July 1			September 1		
July 10			September 10		

Date	Result 1		Result 2	
	Property 1	Property 2	Property 1	Property 2
June 1				
June 10				
July 1				
July 10				

Simple Tables

Result 1

Date	Property 1	Property 2
June 1		
June 10		
July 1		
July 10		

Result 2

Date	Property 1	Property 2
June 1		
June 10		
July 1		
July 10		

A complex table

Date	Result 1	Property 1	Color	Cracks	
				Hairline	Alligator
June 1			red	yes	none
June 10			red	none	yes
July 1			red	0%	none
July 10			yellow	50%	30%
August			blue	none	10%

A simple table

Date	Result 1	Property 1	Color	Hairline Cracks	Alligator Cracks
June 1			red	yes	none
June 10			red	none	yes
July 1			red	0%	none
July 10			yellow	50%	30%
August			blue	none	10%
