Renovations on the way

Air Reno: we continue to work with the City to address improvements in our air system. We are seeking to achieve a full NIOSH compliant air system in the near future. Our engineering study has been approved.

New Lease: negotiations for our new lease continue. Indications are that we will sign the new lease within a week.

Club Expansion: we continue to explore ways and means to expand our capacity. We continue to explore ways to expand to the west in stages. Working in stages will allow us to reach our goals over several years, while expanding some of our programs such as our junior air gun program.
