Pathologies of Power

Paul Farmer, M.D.

- ▶ The illegal trade in children being raped and violently abused is at “a level of epidemic proportions” according to an internal government memo obtained by The Canadian Press. (2016)
- ▶ FBI’s Assistant Director of Criminal Investigation Joseph Campbell, says child sex trafficking and pedophilia have reached epidemic levels. (2015)
- ▶ In June 2017, the national police in the Netherlands issued their Annual Trend Report, describing, for the first time, child pornography as a "threat to Dutch society.” (2017)
- ▶ “The incidence of child sexual exploitation has reached staggering proportions.” -US Department of Homeland Security’s Special Agent John Reynolds (2016)
- ▶ In May 2016, the Pentagon’s Defense Security Service Director, Daniel Payne told reporters the “amount of child porn” on government computers is just “unbelievable.” (2016)
- ▶ Anti-Slavery Australia reported, in May 2017, that child pornography is now a “crime epidemic” with images/videos depicting “highly depraved acts of sexual violence and torture” against “young children.” (2017)

The Book

This book is the result of a difficult journey. It is not research I wanted to do. It is research I have been compelled to do.

I have learned more than I ever wanted to know about how pedophiles destroy our children, families and communities.

This knowledge has altered how I view the world and changed how the world regards me.

It has cost me a great deal. I have lost friends. My career has been targeted. My ability to earn a living has been restricted.

I have persisted because this is a labor of love for children and adult survivors harmed by this crime and for dedicated investigators and prosecutors working to achieve justice.

Presentation Objectives

Provide an overview of child pornography arrests

Review common predator profiles

Discuss steps necessary to ensure predators are held accountable

Explore ways to decrease the likelihood predators are hired

Discuss ways to prevent child abuse

Common Predator Profile

A pedophile is not someone you look at and fear for your children's safety.

A pedophile is someone you willingly leave your child with because this is a person you trust.

Pedophiles are close to home, familiar and in positions of power over children.

Men, and it is overwhelming men, who trade in child rape “are for the most part educated, intelligent individuals who are well integrated into society and successful in other areas of their lives.”

Common Predator Profile

Child exploitation rings led by fathers have become, what some are calling, a “widespread tragedy.”

Most child pornography is produced in North American and Europe. Children in North America and Europe appear to be targeted by their parents, most often their fathers, and are frequently “shared.”

White men in leadership positions, often fathers, frequently involved in infant and toddler rape.

This appears to be the average pedophile profile.

White Men in America

There is a prominent racial element to the trade in child rape and torture.

According to the US Sentencing Commission's most recent data more than 85 percentage of all child pornography convictions in the US were of white men.

This is a staggeringly significant racial demographic.

Project Spade

An investigation called Project Spade, a 2013 Canadian and US Postal Inspection joint operation, provides helpful examples of average pedophile profiles.

Toronto's Sex Crimes Unit said "Of concern to the investigators was the number of people who have close contact with children. The arrests included 40 school teachers, nine doctors and nurses, 32 people who volunteered with children, six law enforcement personnel, nine pastors or priests, and three foster parents."

All in just one investigation.

AP's Military Investigation

AP's findings are consistent my research about who trades in child rape and how they access the children,

AP found those in the US military who were arrested for child pornography related offenses, were most often

Men, most often fathers, in positions of power sexually abusing their own children and/or children of family friends

Infant and Toddler Pornography

John Grisham Speaks Out

Who is Trafficking Infants and Toddlers and
How?

Daily Images of Infants Raped

- ▶ Infant and toddler pornography is the rape and torture of children under four-years-old.
- ▶ As early as 2009, the Department of Justice (DOJ) warned America that infants and toddlers were being raped in increasing numbers.
- ▶ By 2016, DOJ acknowledged it is “routine for child pornography investigations to include files depicting the sexual exploitation of infants and toddlers.” This includes newborns - “children as young as days old.”
- ▶ “Each day (we) receive imagery depicting infants being sexually abused,” says Australian Federal Police Child Exploitation Assessment Centre Commander Lesa Gale. The US Department of Justice says infant and toddler rape is now “routine.” (2017)
- ▶ One pedophile father, for example, posted to a child pornography trading site a sonogram an unborn child and a text message “I have a new baby about to be added to the game.”

US Department of Justice, “Response to “A Reluctant Rebellion.”” 1 July 2009.

NDFL_SEVEN-DEFENDANTS_1-14-09.pdf. In some of these videos, the children can be heard screaming and crying in response to the physical assault. *See also, United States v. Cole*, 2009 WL 1443937 *1 (6th Cir. May 22, 2009) (unpublished) (defendant admitted to possessing images of adult males engaged in sexual activity with infants); *United States v. Pugh*, 515 F.3d 1179, 1193 (11th Cir. 2008) (defendant’s collection included a video of an adult male raping an infant girl and a picture of an adult male having sex with a toddler who wore a dog collar around her neck).

Jon Riveire, former Assistant Director for Student Conduct in Office of Student Ethics at Indiana University, Officer Incident Report

BOX OF GMAIL ADDRESS "ANDINONAME68@GMAIL.COM". THE IMAGE WAS VIEWED AND APPEARED TO BE OF A YOUNG FEMALE, APPROXIMATELY 3-5 YEARS OF AGE WITH AN ADULT MALE'S PENIS IN HER MOUTH. ACCORDING TO THE CYBERTIP, THIS IMAGE WAS LOCATED IN THE BOX OF THAT AFOREMENTIONED EMAIL ADDRESS ON FEBRUARY 26TH 2015.

Jon Riveire

Riveire was arrested, May 2015, and charged with six felony child pornography counts. He was trading in child rape, including of toddlers, on university computers. He pleaded guilty to one count, November 2016, in exchange for having the other charges dropped and was sentenced, February 2017, to 2.5 years house-arrest with no jail time.

He must register as a sex offender. Although Riverie is prohibited from contact with children under 16-years-old, the judge made an exception for Riverie's own children, one of whom is two-years-old, allowing Riveire to retain unsupervised access to his toddler-age children.

This kind of judgement, routinely seen in family courts, makes no sense. Why would a judge provide unsupervised access to a two-year old child for a criminal convicted of child sex offenses?

When you do this sort of work there is certain pictures you just can't get out of your mind. For me, one is the picture of a young girl about six or seven. She is nude, she is strapped to a chair, and the chair has fallen over, and this child is being sexually assaulted by a dog. The tears are streaming up this little girl's face. And to my knowledge, she has not been identified.

We identified more than 45 senders holding the following positions⁶² and sending inappropriate e-mails in the following volumes:

Type of Position	Number of Sent E-Mails
Judges	More than 160
Assistant District Attorneys	More than 35
Senior Executive Branch Officials	More than 30
Members of the General Assembly	Approximately 5

Kathleen Kane

“Kane referenced those emails again on Thursday, claiming she delivered this week more than 1,500 emails from a Supreme Court justice to the state Ethics Commission, the Judicial Conduct Board and the Disciplinary Board. “Those emails contained both sent and received emails from a present Supreme Court justice. They contained racial, misogynistic pornography,” Kane claimed without naming the justice. “There’s other emails regarding 30 percent of women are killed or murdered by their husbands or boyfriends and the punchline is ‘well 30 percent of them should have just shut the expletive up.’ “I’m not the woman to shut up. It is my job as attorney general to make sure that this commonwealth is run properly and the people of this commonwealth are protected. The images themselves aren’t the only story. The problem is the network that’s involved and the breath of this network is incredible,” Kane added.”

Kathleen Kane

“You can arrest me two times, you can arrest me 10 times. I’m sure this isn’t the end of the game, but I will not stop until the truth comes out, and I will not stop until the system operates the way it’s supposed to be.” “And what does this mean to the public?” “That means that your system, your criminal justice system that you think you have and you think you deserve is not working properly.”

Australian MP Dr. Rachel Carling-Jenkins

"I personally viewed deeply distressing images that have caused me immediate and ongoing anguish," she said.

"The faces of many [little girls] are etched in my memory for eternity and I pray the police are able to identify and rescue as many of these poor helpless and vulnerable victims as soon as possible.

"I find myself now unconsciously searching the faces of little girls on the streets, distressed when a face triggers a memory of a photo or a video of a little girl that I glimpsed in his collection.

"These little girls have lost their innocence their childhood and their control over their destiny."

40. The link between organized crime and human trafficking is clearly established and both are often involved in supplying children for sexual exploitation. Any of the facilitators outlined above can be affiliated or controlled by such criminal networks. Additionally, criminal networks have a particular interest in the production and sale of child abuse material, which is increasingly lucrative. Moreover, organized crime groups have used child sexual abuse material to extort money and steal identities.

We, as a society, have allowed child pornography to be easily and profitably accessible.

We have failed to protect our children.
