Building Thriving Communities
In July 2018, the Greater Washington Community Foundation refreshed its community investment focus areas in order to represent the full range of efforts The Community Foundation, its donors, and partners individually and collectively undertake to strengthen the region and create a brighter future for its most vulnerable neighbors.

The Children’s Opportunity Fund is an impact initiative of the Greater Washington Community Foundation focused on funding innovation opportunities that close the achievement gap in Montgomery County, Maryland. As a member of the Campaign for Grade Level Reading network, the Children’s Opportunity Fund is using a participatory grantmaking process to fund organizations providing direct service, advocating for, or researching literacy skills with children ages birth to 8 and their families.

How to Submit a Proposal
To be considered for funding, proposals must meet all the eligibility and program objective requirements. Once you have reviewed the eligibility requirements, please follow the guidelines and format on the following pages to submit your request. We strongly encourage you to use the sample sentences in the format below to prepare your narrative. This format provides a simple way to share your information with our task force of diverse volunteers interested in closing the achievement gap in Montgomery County, MD. This task force will decide which grant proposals receive funding. All required attachments must be submitted as PDF documents via The Community Foundation’s online application system.

Please review the instructions in advance of the deadline to be familiar with The Community Foundation’s online application system. Incomplete, emailed, hard copy, and fax applications will NOT be accepted. The deadline for submission is Monday, October 26, 2020 at 4 p.m.
Application Timeline
All requests will be reviewed by The Community Foundation’s staff and Participatory Grants Committee representatives as applicable. Applicants may receive communication from The Community Foundation as part of the proposal review process. Awards will be announced in the middle of December 2020.

Common Eligibility Requirements
Grants will be awarded to select organizations that meet the following minimum eligibility criteria:

- The applicant (defined as the agency that will receive the grant agreement and funds, if awarded) must have current status as a 501(c)(3) public charity designation. Organizations that have not yet received a 501(c)(3) designation must have a fiscal sponsor to serve as the applicant who meets all eligibility requirements at the time of submission.
- The organization must not be listed on the Office of Foreign Assets Control Specially Designated Nationals list.
- Successful track record (at least two years) of relevant work in Montgomery County, Maryland. Note that nonprofits not located in Montgomery County are eligible to apply if they have a demonstrated track record of serving Montgomery County residents in the time specified.
- The proposed program/project must be conducted within Montgomery County, Maryland.
- The applicant/program must meet one of the program objectives listed in the following section.
- If previous funding has been received from The Community Foundation, the applicant must be current in reporting to The Community Foundation as specified in the grant agreement.
- Organizations have an annual budget of less than $500,000.
- Organizations serve priority populations of Black, Brown, and low-income students.

Program Objectives:
Priority will be provided to organizations led by people of color and/or focused on areas of early literacy, tutoring, and family supports.

- Early Literacy: refers to the development of skills students need in order to transition from learning to read, to reading to learn. These skills include vocabulary, phonics, language, and numeracy. Early literacy gives students the foundation they need in order to learn and grow. Kids who master essential early literacy skills and are reading proficiently by third grade will lead to strong outcomes for the rest of their lives.
- Tutoring: providing academic instruction to individuals or small groups outside of the classroom. Tutors receive training to provide students with help to improve educational performance.
- Family Supports: building family well-being by intentionally working with children and the adults in their lives is important because if the whole family thrives, then the opportunities for children will increase. This could be parenting classes, two generation programs which work with children and parents, or increasing access to childcare and other out of school time programs.
**Award**
Grants of up to $25,000 will be awarded for program support addressing one or more program objectives.
