We have a rare opportunity to add 20 acres on south Mt. Erie with high recreational and conservation value to the ACFL. The Friends of the Forest are partnering with the City on this capital campaign.

The City has signed an option to purchase land on the south side of Mt. Erie from the Udd family at the appraised price of $260,000. As you can see on the attached map, the land abuts the ACFL on two sides and covers a significant area of the south side of Mt. Erie up to the 700’ elevation level. We believe the land was logged early last century, but now has a mix of second growth forest amid meadows and rocky bluffs. The land also hosts a section of the south Mt. Erie trail which is a popular route used by hikers and bicyclists that has beautiful views of Skagit Bay and south Fidalgo.

The City of Anacortes has committed to spending $130,000 of quarry revenues to exercise this purchase option. In order to reserve funds for potential future acquisitions to the forest lands, we are reaching out to the community to help us purchase the Udd acreage. The City is asking local donors to help raise $130,000 to buy the land, plus an additional $20,000 to help fund the conservation and stewardship of the land in the future. This purchase option is valid until December 2014, so please do not wait.

You can make an electronic donation on the Friends of the Forest website, or mail a check made out to the city or the Friends. Please make your donation clearly labeled with South Mount Erie Capital Campaign or Udd Property written in the note section on your check. Please use this address:
Friends of the Forest,
PO Box #2213, Anacortes WA 98221

Our physical address at The Depot does not have a mailbox. Thank You!

We are very excited and hope that a successful campaign will help in the long term effort to conserve other sensitive forested private lands adjacent to the ACFL. Please join in this opportunity we’ve all been waiting for!
ACFL Maintenance Report: 
MARCH - 2014

Much of March was spent clearing trails from the February 22nd Storm. For 3 weeks I pretty much just operated a chainsaw to clear the hundreds of trees and large limbs off the trails. There are still a lot of small limbs on many of the trails, but as far as I know every trail is now open. I was very fortunate to have many volunteers respond to my outreach for help in clearing debris off the trails. Anacortes has some of the best volunteers and the response to help out allowed the trails to open in 3 weeks instead of 3 months. It was awesome and much appreciated. I would like to especially thank Volunteers Bruce Rustad, Kenny Schimke, Nick Stowe and Carolyn Moulton of BikeSpot, Kevin Foss and the Fidalgo Trail Riders, “Big Ed” Clausen, Lorne Shao, Dan Senour, Karen Shepard, and USFS certified chainsaw cutters Len Francies and Peter Partel from Seattle for all their extra time spent in the ACFL to reopen our trails for everyone to enjoy. You guys rock! I’ve attached a few photos of the event…

A successful Work Party was held on March 8th to clear trails of downed limbs & trees.

Thank you to Kevin Foss, Sue Wintermantel, Garth Wilson, Sky Guthrie, Keegan Janicula, Derek Chase, Rachel Foss, Ethan Foss, Ed Clauson, Josh, Maryn, & Liv Bates, Matt & Ian Lujan, Leonard Frances, Peter Partel, John, Eli, and Mica Gold, and Eric Olsen for all your help!

South Mount Erie Harkness Property Update

We were holding the presses with the intent of giving you the latest information regarding the Harkness Property on the Southwest slope of Mount Erie. The latest news as we now go to press is that the Skagit County Hearing Examiner has delayed a determination again, this time until April 21st to allow for the submission and review of more information. In our fall issue we reported that Evergreen Islands had appealed the County’s issuance of a Mitigated Determination of Non-Significance on a forest practice conversion application (PL 13-0102 and grading permit application (BP-13-0136) filed by Mr. Frank Harkness. Mr. Harkness proposed to harvest the timber on the subject site, construct an access road, and develop the 40 acre parcel for residential purposes. Since that time, the Hearing Examiner sent the parties to legal mediation to try to come to an agreement. City staff was also in attendance. Mediation failed to bring the parties to a mutually agreed solution, and it has gone back to the Hearing Examiner for further review and issuance of decision.

A concurrent factor is that Mr. Frank Harkness has simultaneously applied for a Forest Practices Application (including additional updates) with the Department of Natural Resources, a process that would provide a timber harvest option and possible development without county review.

The trail that crosses the property has been fenced off; please do not try to access it at this time. We are hopeful that an amenable solution will still be found that provides for conservation of the sensitive upper reaches of the property and continuing recreational access.
The bright greening of the forest has begun, and Spring is truly here. We have Forest Education Programs scheduled in every available window of student time from the end of Spring Break until the last week of school. Third grade students will be continuing their native plant studies from the fall through our Growing Wild Program, and seventh grade students will be delving into the Island Watershed through our Watershed Discovery Program. High School Students have had the opportunity to be involved throughout the year through a variety of Green Club Activities. I have had the pleasure of working with them on an invasive species removal project on the high school campus. Students identified the problem of invasive species growth on school grounds, and created a map of the worst areas and dominant plants in those areas. They consulted with District staff, and together we prioritized our effort and goals for each area. I helped train them in plant identification and best removal practices, and have been a primary guide during work parties. Ranger Dave Oicles has been kind enough to lend tools and expertise as well. We have focused our efforts on a Scotsbroom filled hillside above the track and field complex, where removal helps control the seed production that makes its way to the forest and serves the dual purpose of increasing visibility and seating for sports fans. The students have taken great pride in their work, and everyone has learned more about the importance of active invasive species control for the long term health of all of our island’s natural areas. In addition to Green Club, I was able to host three seniors for job shadow days this school year and we are excited for our growing scholarship program. If invasive species control in the forest is an area of interest for you, and you’ve got some time to give- let us know! We have an ongoing effort that needs all the help it can get.

Hope to see you in the woods,

Denise Crowe
Get to know your community forestlands! It's time to join a guided hike, and begin to learn more about the fascinating wild heart of our island.

The Friends of the Forest is a non-profit, citizen organization dedicated to the preservation of the Anacortes Community Forest Lands through education, outreach, and stewardship. We have a multi-layered education program that strives to meet the needs of all Fidalgo Island residents. Our education program includes K-12 guided school field trips, Adult/Senior hikes, All ages hikes, Forest Discovery Day Camp, stewardship opportunities, Ethnobotany field seminars, a quarterly newsletter, and our two comprehensive school district programs; Growing Wild-native plants for all 3rd graders, and Middle School Watershed Discovery for all students in the 7th grade.

Our community hikes are FREE and no registration is required. Please join Naturalist, Denise Crowe, this spring as we continue to explore and learn more about the ACFL together. For more information about our group or these hikes please contact Denise Crowe or Jean Andrich at 293-3725. You may also visit our website www.friendsoftheacfl.org or inquire by email at info@friendsoftheacfl.org . These activities focus on human and wildlife experience, so we ask that you please leave your dogs at home. Hope to see you in the woods!

### All Ages Hikes

Great for families and folks of all ages, these are hearty hikes averaging 2-3 miles with a naturalist guide.

<table>
<thead>
<tr>
<th>Hike Name</th>
<th>Date</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Little Cranberry Lake</td>
<td>Saturday, April 26th</td>
<td>10am until noon</td>

Spring Adult Fitness Hike - For the very fit!

**Saturday, May 17th**
**10 am until 1 pm**
Join Board Members Scott, Monica and Jean for a challenging and fast paced adventure. Prepare to cover 8 miles of trail on this three hour tour of Little Cranberry terrain. Bring water and a snack. Meet at the Little Cranberry Lake parking lot. Take Georgia south off of Oakes and follow up to the ACFL road, take a right and follow to the parking lot.

**Save the date!**
**Forest Discovery Program 2014**
Session 1 – July 22, 23 and 24  •  Session 2 – August 5, 6 and 7
This is an activity oriented summer day camp for boys and girls ages 7 to 12. Each day we explore a different area of our Anacortes Community Forest Lands. For more information, contact Jean at 360.293.3725 or jean@friendsoftheacfl.org

**ETHNOBOTANY FIELD SEMINAR**
**Friday, June 27th • 10am until 3:30pm**
Adults only, must register by phone or email. More information will be provided upon registration. Give yourself a day of slow paced forest exploration with naturalist Denise Crowe. Get to know the amazing history and characters of the plants of our island. Ethnobotany is the study of native plants and the traditional uses of the plants by people. You will learn about food, medicine, and materials derived from the vast array of native plants in our woods.

Early spring brings magenta Salmon Berry blooms.

**Alder Catkins are more subtle, but their beauty is revealed if one looks closely.**
WAYS TO GIVE

Our work depends on a healthy mix of funding sources. All contributions to our group are tax deductible. Please consider the following options for financial contribution to our organization.

1. **Active Membership**
   Dues are due in January! There are different categories of membership to suit your preference. Any contributions to our group above your membership level are greatly appreciated. See our membership form on the back page.

2. **Individual Contributions**
   We greatly appreciate any contributions to help support our education and outreach program. You can make these in honor or in memory.

3. **Friends of the Forest Endowment Fund**
   We have an endowment fund established with the Skagit Community Foundation. The purpose of this fund is to create an endowment that will eventually provide interest income to our organization. This is an excellent option for sizeable donations to our group.

4. **Planned Giving**
   If you are making estate plans, please consider including our organization.
   You may contact Denise Crowe or Jean Andrich (360-293-3725) at our office to discuss any of these options.

---

**Membership Notes**

January starts the new membership year, regardless of what month you joined or renewed.

~

To save resources, we do not send out reminder postcards. Please renew or join today!

Confused on a hike location? Check out our website for links to driving directions to each hike location.

~

Our regular office hours are Tuesdays, Wednesdays and Thursdays from 10 am to 1 pm and always by appointment. Need an ACFL trail map? We have them for sale in our office or you may also visit our website for a complete list of local sources. Please mail memberships/contributions to: Friends of the ACFL, P.O. Box 2213, Anacortes, WA 98221 or visit us at 611 R Avenue, Anacortes, WA 98221

Thank you to all friends who have renewed their dues and a reminder to those who haven’t sent in this year - we need it! Keeping your dues current with the Friends of the Forest is one of the best ways to Think Globally and Act Locally. On Fidalgo Island, thankfully we have the ACFL, and it needs Friends to ensure its preservation. Our Education Program depends on your support. Thank you!
