FAB and Friends Flotilla Meeting July 5th

Members of the Forest Advisory Board, Friends of the Forest Board and staff from the City and the Friends gathered for our annual joint meeting in the woods on July 5th. We were eager to experience the results of the long process of treatment at Heart Lake that culminated this spring. We had an amazing evening exploring this once again beautiful lake with our flotilla of small boats, kayaks, and paddleboards. With water so clear you can see the bottom in places, we observed fish and healthy plankton galore. We expect more native algae growth to come back in to balance as the summer progresses. It is a wonderful feeling to know that the extensive years long community process combined with state agency and city government support for best science professional treatment has resulted in bringing our beautiful Heart Lake back to shimmering health. Be sure to get out and see for yourself with a swim or a paddle soon!

Wherever your trail adventures take you, please strive to do your part in helping to take care of the forest!

- Stay on the trails that are designated for your particular use.
- Please keep your dogs on leash and pack out their waste.
- Please do not harvest or take anything out of the woods, except what you have brought in.
- Please respect wildlife and keep your distance from their activities and homes.
- There is no camping or drinking alcohol in the ACFL, and no fire of any kind. This includes smoking, fireworks, campfires, or grills and camp stoves.
- If you see any rules being broken in the forest, please call 911 and state if it is a non emergency call, then report the violation.

Special Notice:
Fire Danger is going to be at high levels this summer. Please do everything you can to avoid any kind of spark source in or around the woods. Cigarette butts are the leading cause of fire in our forest lands, please do not smoke in the ACFL! If you live near the woods, check out the Firewise program at Firewise.org to learn about how you can help reduce wildfire risk in your neighborhood. Working together, we can make a difference!
A question from high school students working on a climate change project this spring...

Well, How do you get affected by climate change?

Dear Baylie and Anissa,

Well, that could be a very big question so I will tackle just one area that is affecting me every day. We are seeing effects of climate change in the Anacortes Community Forest Lands where I work. Weather patterns have been changing in accord with climate change predictions for our area. Simply put, rain is more in the winter season and Spring-Fall is dryer. The past three years have brought significant summer drought and we are seeing high levels of tree and shrub mortality throughout the forest. Younger western red cedar and hemlock trees, sword fern, salal, and other shrubs are dying off due to lack of water and hotter temperatures. Little animals that have important decomposer roles like Banana slugs and yellow spotted millipedes are greatly reduced in number most likely from drought conditions as well.

We know that forest fire danger is increasing. What are the long-term effects of these changes on forest health and food webs? We don’t know fully, and the changes are happening rapidly. It is concerning and it is a challenge to connect the dots for people in a way that will inspire action to change our ways. Most people are happy to have sunny summers and don’t have compassion for banana slugs or millipedes. Yet I fear that the changes we are seeing now are just the beginning and that native animals and plants will struggle to adapt.

I hope this helps you out. Please let me know if you have any other questions!

Denise Crowe

Save the Date!

Friends of the Forest Annual Benefit Event

November 3rd at the Port Warehouse

Please join us for The Best Party of the Year, while raising funds to support our Forest Education and Stewardship Program. This program provides a wide range of educational activities in the ACFL that promote a greater understanding of our unique community treasure.

The format will be the same as last year, casual and relaxed! We are starting at 5 pm to allow more time for silent auction browsing and socializing with forest friends. The live auction, hosted by Bob Vaux, offers a few select items and will include a direct giving opportunity through “Wave a Branch.” Fidalgo Swing will play live music throughout the evening and Gere a Deli will provide appetizers, dinner and dessert.

Tickets will be available through the Friends of the Forest Office, Watermark Book Company or online at: www.friendsoftheactfl.org beginning in September.

If you have something special to donate to the auction, please let us know. Sponsorships are also available. Look for updates on our website: www.friendsoftheactfl.org

Featured Artist: Peregrine O’Gormley

We look forward to unveiling the Featured Artwork in early fall, it will also be on our event poster and featured in our live auction.
Greetings from the ACFL Crew! We are already off to a wonderful summer, with warm days and plenty of sunshine. The ACFL Crew, (Dave, Julia, and Chris) are busy pruning along the 52 miles of trails and patrolling the lakes during warm weather events. Our summer is generally short with the summer crew available to work from mid-June until Labor Day. During the rest of the year it’s just Dave out there maintaining the trails and managing the forest lands. We also do a number of work parties during the winter months which consist of repairing trails, picking up trash, and removing non-native invasive plants (which is a never ending task).

**This brings me to the topic concerning VOLUNTEERS NEEDED.**

In the past, we had an amazing volunteer, Mr. Hershel Janz aka the “Holly Annihilate-tor” who roamed the ACFL seven days a week looking for and removing non-native invasive plants. He focused on holly and it was his goal to hike every trail and remove all holly that was visible from the trail. After he reached that goal, he then would go into the woods and find more holly to remove and drag out to the trailheads. Over 20 years Hershel removed hundreds of truckloads of holly and other invasive plants and gave thousands of hours of his time. When he would find an area heavily infested, we would organize a work party to get other volunteers to help with these huge tasks. Collectively with Hershel and other ACFL volunteers, it has been a huge successful program in our community forest lands. However, non-native plant seeds are constantly being deposited in the ACFL by birds, wind, animals, and sometimes by humans dumping yard waste along roads and in the woods behind their yards. So the task of removing invasive plants is never ending.

Hershel was a unique man, and I don’t expect to ever find someone with the tenacity and drive to put in the thousands of hours of time he did, while walking his beloved dog Suke out on the trails. But the hope is we can find volunteers who are willing to scout out non-native invasive plants, flag with yellow tape, and spend a few hours a week removing invasive plants. I will provide any training needed on plant identification, yellow flagging tape, methods of removal, and the necessary tools needed to accomplish the job. So do I have any takers? Please call or email me and we can set up a time to get you started in a rewarding volunteer experience!

Thank you, I’ll see you in the woods.
Ranger Dave Oicles 360-661-3554 daveo@cityofanacortes.org

---

**Trail #137 Opens With Help From Volunteers!**

There is a new ACFL trail connecting the very top of Rock Ridge with trail #129 in the Little Cranberry Lake Area. This trail was proposed years ago and was scouted by staff and volunteers, with potential routes discussed and reviewed on site by FAB and the trail committee. Ranger Dave worked closely with lead volunteers, Bruce Rustad, Kevin Foss, and the Fidalgo Trail Riders. Thank you to all that worked hard on this project and collectively clocked 130 hours!
The Friends of the Forest is a non-profit, citizen organization dedicated to the preservation of the Anacortes Community Forest Lands through education, outreach, and stewardship. We have a multi-layered education program that strives to meet the needs of all Fidalgo Island residents. Our education program includes K-12 guided school field trips, Adult/Senior hikes, All ages hikes, Forest Discovery Day Camp, habitat restoration efforts, adult field seminars, a quarterly newsletter, and our two comprehensive school district programs; Growing Wild-native plants for all 3rd graders, and Middle School Watershed Discovery for all students in the 7th grade.

Our community hikes are FREE and no registration is required. Please join our Naturalist Guide, Denise Crowe, for summer fun as we continue to explore and learn more about the ACFL together. For more information about our group or these hikes please contact Denise Crowe or Jean Andrich at 293-3725. You may also visit our website www.friendsoftheacfl.org or inquire by email at info@friendsoftheacfl.org. These hikes focus on human and wildlife experience, so we ask that you please leave your pets at home. Hope to see you in the woods!

### All Ages Hikes
(Great for families and folks of all ages, these are hearty hikes with a naturalist guide.)

- **All around Heart**  
  *Saturday, July 21st*  
  *10am until after noon*  
  There is no better place to be in the middle of summer than in the middle of our woods. Get to know the heart of the forest on this wonderful 2.7 mile journey all the way around Heart Lake. Lush deciduous areas flow into an amazing old growth grove. Meet at the Heart Lake Parking lot.

- **Mitten Pond Loop**  
  *Saturday, August 11th*  
  *10am until noon*  
  Summer isn’t over yet! The cool smell of water floats up the path as we near Mitten Pond. Whirligig beetles spin shining patterns in the glowing green duckweed. Dragonflies drift and zoom around us. Enjoy this wide path 2.4 mile hike through the best of beaver pond territory. Meet at the ACFL kiosk on A Ave. and 37th.

- **Erie View Trail**  
  *Saturday, September 8th*  
  *10am until noon*  
  This is a trail of wonders, twisting and turning through prime wetland wildlife corridor all the way to a hidden meadow. Our most recent forest acquisition of 40 contiguous acres is in this area. The views of Lake Erie and Mount Erie are a rare treat. This hike is approximately 2.8 miles. Meet at the base of Mount Erie on Ray Auld Drive.

### Senior/Adult Hikes
A little bit gentler, with an adult level flora and fauna focus...

- **Northwest Whistle**  
  *Friday, August 10th*  
  *10am until noon*  
  This route is a regular favorite, providing spectacular views and deep woods feel with just the right amount of physical challenge. Meet at the Whistle Lake parking lot. Just over 2 miles

- **Northwest Heart**  
  *Friday, September 14th*  
  *10am until noon*  
  We will explore a maze of trails in the Ace of Hearts Creek terrain. There will be some gentle hills on this just over 1 mile hike. Meet at the Heart Lake Parking Lot.
The “Forest Discovery Program” is an activity oriented summer day camp for boys and girls ages 7 to 12. Each day we explore a different area of our Community Forest Lands. As we hike, play games, make nature journals and experiment, we learn about wild animals, native plants and different habitats. Forest Discovery will meet at a different trailhead each day.

Our sessions are all full with wait lists. Please let us know if you are interested for future capacity planning!

2018 Forest Discovery Day Camps
Session #1: July 24, 25, 26 - Full
Session #2: August 7, 8, 9 - Full

Congratulation to our 2018 Scholarship Recipients!
Caitlin O’Connor, Liam Patrick and Adrianna Garner were each awarded $1,000 from Friends of Forest. Caitlin is planning to major in Environmental Studies at Western Washington University. Liam is attending California State University at Monterey Bay this fall and will study Marine Science. Adrianna has plans to attend Stanford University and major in Linguistic Anthropology, as a way of preserving native culture. On behalf of the Friends of the Forest, we congratulate these three outstanding students!

Beaver Dam Work Scheduled For This Summer

Our beaver population in the ACFL is thriving, and they do very important work in our island watershed. The Little Cranberry Lake area is home to over 10 active lodges and multiple dams. Their dams have created and maintain an extensive network of varied wetland habitats that support diverse aquatic plant and animal species. Without our beavers, we would have less diversity of habitats and less diversity and abundance of wildlife in our woods.

Unlike beaver on a river system, ours have adapted to a very stable system of ponds. They rely on evergreen trees and aquatic plants for food and building materials. Typically, beaver will focus on deciduous trees for tender cambium and branches for food. Our beaver utilize cedar for tender branch tips and inner bark, as well as preferred sticks for construction. They also eat pond lilies and cattails.

We like to let the beaver expand their ponds when we can. However, there are key dam areas that border neighborhoods or essential trails where city staff intervene. It is illegal to alter beaver dams or lodges without permits. Our city staff has recently completed a process with the state Department of Fish and Wildlife in order to be able to manage key dam areas in these interface zones. Later this summer, they will be doing some major dam work at 32nd Street Swamp and Mitten Pond. New “beaver deceiver” pipe systems will be put in place that will help keep these ponds from flooding or dam failure from flood events.
Friends of the Forest 2018 Members

Thank You

Our regular office hours are Tuesdays, Wednesdays and Thursdays from 10 am to 1 pm & always by appointment.

Please renew or join today! We accept donations online. Visit our website and go to Contribute.

Confused on a hike location? Check out our website for links to driving directions to each hike location.

Need an ACFL trail map? We have an electronic version available for download on our website, as well as a listing of where maps are available for sale.

Ways to Give

Our work depends on a healthy mix of funding sources. All contributions to our group are tax deductible. Please consider the following options for financial contribution to our organization.

1. Active Membership
   Does not expire in January! There are different categories of membership to suit your preference. Any contributions to our group above your membership level are greatly appreciated. See our membership form on the back page.

2. Individual Contributions
   We greatly appreciate any contributions to help support our education and outreach program. You can make these in honor or memory.

3. Friends of the Forest Endowment Fund
   We have an endowment fund established with the Skagit Community Foundation. The purpose of this fund is to create an endowment that will eventually provide interest income to our organization. This is an excellent option for sizeable donations to our group.

4. Planned Giving
   If you are making estate plans, please consider including our organization.

You may contact Denise Crowe or Jean Andrich (360-293-3725) at our office to discuss any of these options.

Thank you to all friends who have renewed their dues and a reminder to those who haven’t sent in this year - we need it! Keeping your dues current with the Friends of the Forest is one of the best ways to Think Globally and Act Locally. On Fidalgo Island, thankfully we have the ACFL, and it needs Friends to ensure its preservation. Our Education Program depends on your support. Thank you!
