Apprenticeship FAQ

Who is eligible for an apprenticeship with Prettyology Academy?

Graduates of our 100-hour beginner fundamental programs are eligible for workshops, observation hours, or our apprenticeship package. At this time, we are unable to offer these services to artists who have trained elsewhere.

If you have completed your permanent makeup training elsewhere, it is important to note that you may still take a 100-hour beginner fundamental course with us which will enhance your education. You would then be eligible to register for any Prettyology Academy Apprenticeship services.

What do I have to do to get started?

The first step is to consult our academy staff to see which option is right for you. You will then need to apply for a Boston Apprenticeship Permit prior to your first day. The fee is $100, paid to the city of Boston.

What would the schedule be?

Our apprenticeship dates are booked 6 months in advance, so you have plenty of time to plan accordingly. Upon acceptance into our package program, we will work together to create a contract that provides all dates and times.

What if I can’t find models for my procedures?

Your apprenticeship is the first step in building your clientele. We provide dates far in advance so you will have plenty of time to advertise or ask friends and family. We suggest establishing your social media presence during your beginner fundamental, using photo and video from class, so that you have a portfolio to show potential clients. At this time, we do not have the staff capacity to source models for you. This also allows us to keep the program cost lower.

Will I get my license when I finish?

Licensing requirements vary by city. We ask that you please research the requirements of the city you are seeking licensure in prior to committing to our program. Licenses are issued by the Board of Health and cannot be issued by schools. Upon completing the requirements of the city, you will then provide them with our certificate and documentation of your completed hours to then apply for your license.

If you are choosing our 6-month apprenticeship package, this will provide 24 procedures and 60 hours of observation. Options for individual supervised procedures or observation hours are also available.
