# ABOUT

Duke's On The Water is a farm to table counter service restaurant featuring gourmet sandwiches, burgers, and salads utilizing local and sustainable ingredients in a fun outdoor environment.

Not only do we source our ingredients from sustainable producers, but we also look for ways of reducing our carbon footprint by recycling and using compostable service ware.

## MEET OUR PRODUCERS

Being a sustainable restaurant means that we source our products as locally as possible. Below are just a few of the local producers we use here at Duke's On The Water.

### MIDDLEBURY FARMS

*Harvard IL*

Middlebury Farms has been growing certified organic produce since 2006 and they place great value on soil fertility, and a healthy natural growing environment.

### GREAT LAKES POTATO CHIPS

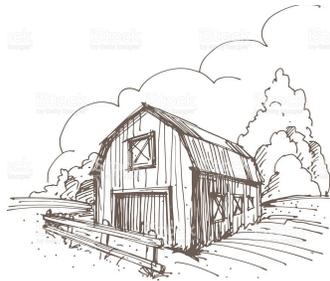

*Traverse City, MI*

Small batches, fresh, almost all Michigan potatoes and spices and a good, old-fashioned Midwestern work ethic. The result? One sensational kettle chip that stands up to the most demanding snack craving you can dish out.

### BROADVIEW FARMS AND GARDENS

*Morengo, IL*

Diversified family farm dedicated to providing the greater Chicago area with a secure and trustworthy source for sustainably raised food. Use minimal amounts of machinery and outside labor. Certified Naturally Grown produce.

### SLAGEL FAMILY FARMS

*Fairbury, IL*

The Slagel Family has been raising pasture raised meats for five generations. They produce humanely raised beef, pork, poultry, eggs, and more.

### ALDEN HILLS

*Walworth, WI*

They are firm believers that wholly nourishing food comes from building a farm eco-system that enhances both soil and animals. Their meats are Certified Organic and guaranteed grass-fed, grass-finished and always out on pasture.

## DAILY SPECIALS
