VGK CAN HELP!

We will work one-on-one with your child to help them **stay connected** to the material they've already completed, while simultaneously helping them **get connected** with what's to come in their next school year! We can help your child retain the important concepts that so often are lost during the summer non-school months while teaching new concepts to come!

OUR METHOD:

We encourage and promote higher-level thinking in a comfortable and fun learning environment. Our goal is to share and instill a love of learning in a way that will make your child feel like powerful, strong, victorious learners!

ABOUT US:

Jennifer is a 20-year veteran teacher with a Masters in Education. Jeff is a 20-year business owner and expert in mental health with a Masters in Business Administration. We are parents of two amazing humans, ages 17 and 20.

We believe in the power and value of children as thinkers and world changers.
